Data Analytics Working Group
Oct 30, 2014
3p
Regents Room

Minutes:

Reviewed list of questions submitted / creation of subcommittees / next steps
Subcommittees will be created chaired by those who submitted questions. Membership of subcommittees to be comprised of
- WERIT members (list attached) as a way to get data expertise from schools/colleges
- Subject Matter Experts
- UITS Staff (Ed volunteered himself and his staff to serve as needed)
- Others as desired by the Chair
- IR staff as requested/needed

Subcommittees will meet periodically through the end of this calendar year to address the remaining questions on the grid, e.g. data needed to answer question, tools/resources required, etc.

A further review of the questions submitted will be undertaken to reference questions that have multiple points of contact to the multiple subgroups, e.g. if a question is related to both space and budget, both groups should review how they would approach to question. Large group meetings will further facilitate the movement away from silos as we share what we have learned.

Marija suggested that one way to organize the conversation within subgroups would be to use the Strategic Plan as a way to prioritize, organize and place within context.

Ed and Gesele will form a subcommittee to discuss tools and information resources.

The full committee will meet again on Nov 13 to discuss the development of a data hub web page.

Additional meetings are scheduled for 12/3 and 12/17. Progress of the subcommittees will be discussed at all of these meetings.

The deadline for a first draft of the completed grid is 12/31. This grid will serve as a tool for decision-making regarding priority, resource investment and moving forward.
WERIT Campus Members:

- **Nicole Aidich**, Registrar's Office
- **Ellen Daly**, Graduate School
- **Rachael Daniel**, Registrar's Office
- **Mike Darnell**, Helen Bader School of Social Welfare
- **Rita Delzer**, School of Education
