

MASTER OF SCIENCE IN MANAGEMENT

INFORMATION TECHNOLOGY MANAGEMENT

The Information Technology Management program is designed to provide advanced knowledge to practicing IT professionals. The program combines a core curriculum of technology independent coursework with a diverse offering of elective courses. Students seeking a more technical focus may choose courses on intelligent systems, artificial intelligence, knowledge-base systems, simulation and modeling, groupware, data mining, and data warehousing, among others. Students expecting to work more closely with managers and users may tailor their program through topics such as information systems strategy, behavioral aspects of information systems, end-user development, and planning for information technology adoption and diffusion.
