

MASTER OF SCIENCE IN MANAGEMENT **TAXATION**

This area of concentration trains individuals to provide expert guidance on tax matters to business organizations and individuals. The taxation curriculum strives to develop student skills in three areas: technical competence in current state, federal, and international tax laws; evaluation of tax consequences of business and investment decisions; and conceptual understanding of the impact of the nation's tax policies on the economy and specific industries or firms. Skills developed in the taxation program are highly valued by accounting and law firms, corporate tax departments, and government agencies.

Foundation Courses

Students admitted to the MS-Taxation program without sufficient background must complete the following additional courses:

- BUS ADM 405 Income Tax Accounting I. 3 cr.
- BUS ADM 703 Financial Accounting. 3 cr. (B or better grade required)
