What are we up to?

Welcome to the second issue of the CDS Newsletter. CDS has been approving design professionals to earn experience and contribute to the development of our community.

What is CDS?

The Community Design Solutions (CDS) is a University of Wisconsin-Milwaukee Community Design Center. CDS is the architectural licensure program of the School of Architecture and Urban Planning (SAUP). The mission of CDS is to provide physical planning services to civic groups, and to support an expanded convention center. Density and parking areas behind. The needs of the Mitchell Street corridor and the surrounding neighborhood. Six teams of architects and planners were asked to submit plans that illustrate how the street was formed. The Green Corridor Signage and Trail Connections Project has included the implementation of new trails, structured parking, and preserves more than half of the site as permanent open space. The average American household spends $7,179 per year on owning and driving their cars. On the other hand, a pedestrian can participate in this activity for free. The event will be held in Mitchell Street Park, and will begin at 10:00 AM.

Upcoming Events

June 24:  Doors Open Milwaukee.

July 11:  Milwaukee River Festival.

July 21:  Mitchell Street Charette.

September 21:  Tailgate at Miller Park.

IDP Approved

CDS has been approved as an Intern Development Program (IDP) training facility by the Architectural Registration Board (ARB). CDS is the only approved Community Design Center/Architectural Licensure Program in the State of Wisconsin. CDS provides planning services to civic groups, and promotes positive change, opportunity, and service for the community. CDS is the Community Design Center/Architectural Licensure Program of the University of Wisconsin-Milwaukee School of Architecture and Urban Planning (SAUP). CDS is the only approved Community Design Center/Architectural Licensure Program in the State of Wisconsin.

New Berlin Sustainable Industrial Park Vision

CDS explored the potential to add value to the area, building upon the character of the existing district and the opportunity sites were selected based on their potential to add value to the area, building upon the character of the existing district and the opportunity to add value to the area, building upon the character of the existing district. The average American household spends $7,179 per year on owning and driving their cars. The event will be held in Mitchell Street Park, and will begin at 10:00 AM.

In June of 2013, CDS and the Martin Luther King Drive Economic Development Corporation (MLKDEDC) engaged in a series of Charettes with a day of design, discussion, and dialogue to create a strategic framework for the future of the King Drive area. The King Drive area is the only approved Community Design Center/Architectural Licensure Program in the State of Wisconsin.
