This issue focuses on family, parks and projects. South 27th Street Charette and Family Park are our featured projects. Find out more about CDS and our work in this issue of “On the Boards.”

South 27th Street Charette

Client: City of Milwaukee, City of Greenfield, South 27th Street Business Association

CDS’s seventh Community Design and Development Charette focused on how to transform the South 27th Street corridor from a gateway site into a walkable commercial and entertainment district.

What is CDS?

Community Design Solutions (CDS) is a funded design firm in the School of Architecture and Urban Planning in the UWM College of Community and Public Service.

CDS provides services to local not-for-profits, city agencies, and public sector organizations. CDS supports the development of communities by providing strategic planning, design, and implementation services.

- Community design and development
- Environmental planning and sustainability services
- Social equity and access analysis
- Project management and implementation
- Web design and digital media

Fuller Park

Client: City of Milwaukee Department of Public Works

Fuller Park is one of the largest parks in Milwaukee County. Fuller Park Signage was designed to provide comprehensive information for visitors. The sign was implemented in 2016.

South Park

Client: City of Milwaukee

South Park features a new gateway signage which, together with South Park Signage, will serve as a catalyst for the gateway transformation. The sign was implemented in 2016.

What is CDS?

CDS is a funded design firm in the School of Architecture and Urban Planning in the UWM College of Community and Public Service.

CDS provides services to local not-for-profits, city agencies, and public sector organizations. CDS supports the development of communities by providing strategic planning, design, and implementation services.
