Dive in to the Integrated Bachelor’s/Master’s Program with the UWM School of Freshwater Sciences

The Integrated BS/MS Program allows qualified Carroll students who have completed three years of undergraduate studies to begin graduate coursework at the UW-Milwaukee School of Freshwater Sciences. Choose the Thesis track and complete original research or the Professional Science track and complete an internship and business & communication courses.

Earn your Bachelor’s and Master’s in 5 years!
Enroll in the Freshwater Master’s program during your senior year, and count UWM graduate credits toward both your BS and MS degrees.
- Transfer up to 18 hours of UWM graduate credits back to CU to earn your BS degree
- Continue with graduate studies for one additional year at UWM to complete your MS degree

ADMISSION REQUIREMENTS

Applicants must meet UWM Freshwater Sciences as well as these additional requirements:
- Enrollment in a Carroll undergraduate Biology or Environmental Sciences program
- Cumulative undergraduate grade point average of 3.3 or higher
- Completion of at least 110 credits (Professional Science track) or 115 credits (Thesis track)
- Submission of GRE scores for Thesis track
