- General Tips for Success**
- | |
|--|
| <i>1. Schedule an advising appointment each semester during your time in the College of Health Sciences: (414) 229-2758.</i> |
| <i>2. Review your academic requirements in PAWS (in the drop-down menu in the Academics section of your student center).</i> |
| <i>3. Enroll for classes at the time of your enrollment appointment (available in your student center in PAWS).</i> |
| <i>4. Email advisor if/when questions arise.</i> |

This planner is provided as a guide for selecting courses in upcoming semesters. Listed courses are based on your degree requirements and individual needs to meet prerequisites and GERS. It is possible these courses differ from those listed as official degree requirements documented in the UWM Undergraduate Catalog and the College of Health Sciences Program Descriptions. This form does not serve as verification of graduation requirements. Should a discrepancy occur between the published requirements and planner, please contact your advisor for clarification. Students are responsible for understanding their degree requirements and verifying the accuracy of this information.
