cPanel: Logging In/ Resetting Password

Logging in to cPanel

1. To access your cPanel login screen, go to:

example.digitalmediadrive.com/cpanel

(Be sure to change “example” to your ePanther username.)

2. Enter your username (same as ePanther login name) and the password that was given to you during the in-class cPanel/ WordPress training session. Note: Your initial cPanel password will not be the same password you use to log in to PantherLink, D2L, PAWS, etc.

If you forgot your cPanel password or need to obtain one, see Resetting cPanel Password below.)

Resetting cPanel Password

1. In your cPanel login screen (see above), Click Reset password.
2. Enter your username (your ePanther name) in the username field. Do not include @uwm.edu.
3. Click Reset Password button.
4. cPanel will send an email to your UWM email account. (Note: if you do not see the Account Reset Password email in your Inbox, you may need to check your Junk folder.)
5. In the Account Rest Password email, click the SSL Reset Link (near bottom of email.)
6. cPanel will display a new password. Use this password to log in. After you log in to cPanel, you can change this password.
