WordPress: Viewing Site/ Logging In/ Resetting Password

Viewing your WordPress Site

1. To view your WordPress website, go to:

   example.digitalmediadrive.com

   (Be sure to change example to your ePanther username.)

Logging in to WordPress

1. To access your WordPress login screen, go to:

   example.digitalmediadrive.com/wp-admin

   (Be sure to change example to your ePanther username.)

2. Enter the username and password you created during the WordPress in-class training session. Reminder: You created your own WordPress username and password during the WordPress in-class training session.

   If you forgot your WordPress username and/or password, see Resetting WordPress Password below.

Resetting your WordPress Password

1. In your WordPress login screen (see above), click the Lost your password? link (beneath login window.)
2. Enter your UWM email address and click Get New Password.
3. Go to your UWM email account and check your Inbox for a new email from your WordPress account.
4. In the Password Reset email, be sure to note the username you created when setting up your account (this is important.)
5. To reset your password, click the link provided in the email.
6. On the WordPress Reset Password page, enter a new password twice and then click Reset Password.
7. After your password is reset, click the Log in link to log in to your account with your correct username and new password.
