The Right wing collection of the University of Iowa libraries.
Contains serials and ephemera covering the period 1918-1977 from right-wing collections at several universities. The ideological orientation of the serials is indicated in each entry by one or more of the following terms: Anglo-Israelite, anti-black, anti-communist, anti-fluoridation, anti-Semitic, Christian fundamentalist, conservative, and libertarian. A paragraph at the end of each entry describes the issuing body (e.g., Ku Klux Klan, National Socialist White People's Party) and its basic doctrines. Ephemera (correspondence, broadsides, leaflets, pamphlets, cartoons) are described less fully, but subject orientation is indicated. A subject index, geographical index, and chronological index allow searches by subject, by state (Canada is included but not indexed by province) and by year.

Description from the Library of Congress
