Assistant/Associate Professor in Statistics

The Department of Mathematical Sciences at the University of Wisconsin-Milwaukee invites applications to fill a tenure-track or tenured faculty position in Statistics. The appointment start date is August 21, 2017.

The department is seeking an outstanding candidate with a PhD in statistics, mathematics or a related area with research expertise in statistics. Minimum qualifications include (i) PhD in statistics, mathematics or related field by August 2017; (ii) teaching experience in statistics; and (iii) research specialization in statistics or related field. Preference will be given to applicants who: (i) demonstrate potential for high scholarly productivity, (ii) demonstrate strong teaching ability, and (iii) demonstrate potential for collaborative research. Applicants seeking appointment with tenure will also be expected to assume leadership roles mentoring PhD students and seeking external funding.

Responsibilities will include teaching two courses per semester, taking active roles in the undergraduate, Masters and PhD programs, and pursuing external funding/partnerships. A competitive compensation and research start-up package will be provided depending upon qualifications and experience.

To apply for this position, please visit http://jobs.uwm.edu/postings/25882 and upload: (a) cover letter; (b) curriculum vitae; (c) research plan; (d) teaching statement; and (e) names and contact information of three references.

Review of applications will start March 1, 2017 and continue until the position is filled. Applications received after this date may not receive full consideration.

The Statistics program of the department has a long history of preparing undergraduates for professional employment and further study. It participates actively in the Actuarial Science program in the department, which has recently been designated a “Center of Actuarial Excellence” by the Society of Actuaries. Many areas of potential collaboration exist within the Department, across the University and with the Medical College of Wisconsin in areas such as finance, biostatistics, data analytics and environmental data analysis.

UWM is an AA/EO employer: All applicants will receive consideration for employment without regard to race, color, national origin, religion, sex, sexual orientation, gender identity/expression, disability, or protected veteran status.
