Registration deadline:
August 8, 2016 or when full

**Trainer:** Bonnie Phernetton

**Target Audience:** Wisconsin home visitors working in a program affiliated with the Healthy Families America evidence-based home visiting program model.

**Description:**
The Integrated Strategies for Home Visiting (ISHV) Seminar is an in-depth, formalized training intended for home visitors using the Healthy Families America (HFA) program. Through four full days for the home visitor, plus an additional fifth day for supervisors and program managers, the training outlines the specific duties of the home visitor in their role within Healthy Families America.

*HFA (Healthy Families America) is a nationally recognized evidence-based home visiting program model designed to work with overburdened families who are at-risk for adverse childhood experiences, including child maltreatment. It is a primary home visiting model best equipped to work with families who may have histories of trauma, intimate partner violence, and mental health and/or substance abuse issues. HFA services begin prenatally or right after the birth of a baby and are offered voluntarily, intensively and over the long-term (3 to 5 years after the birth of the baby).*
