Android Settings to Connect to the “UWMWiFi” Option

NOTE: To complete the set-up process and connect, you must be in a building with UWM WiFi. Visit the Student Union, Golda Meir Library and other select UWM buildings. To view the building list, visit UWMWiFi.uwm.edu, click on “WiFi Availability” link.

Following are two setting configurations to access UWM WiFi on an Android device. It is recommended Setting #1 be tried first; if unsuccessful, try Setting #2. If neither setting provides access to UWM WiFi, contact the vendor or the manufacturer for additional support.

Setting #1:

- **EAP Method**: PEAP
- **Phase 2 Authentication**: MSCHAPV2
- **CA Certificate**: Unspecified
- **User Certificate**: Unspecified
- **Identity**: Enter your ePantherID
- **Anonymous Identity**: Leave blank
- **Password**: Enter your ePanther password

Setting #2:

- **EAP Method**: PEAP
- **Phase 2 Authentication**: Unspecified
- **CA Certificate**: Unspecified
- **User Certificate**: Unspecified
- **Identity**: Enter your ePantherID
- **Anonymous Identity**: Leave this blank
- **Password**: Enter your ePanther password

You have now configured your device to connect to the “UWMWiFi” option when you enter a building with UWM WiFi.

Questions? Problems? Contact the UWM Help Desk at 414-229-4040 or at GetTechHelp.uwm.edu

Personal device set-up assistance available Monday–Friday, 8 a.m.–5 p.m. at:
- UWM Walk-in Help Desk, Bolton 225A
- Library Learning Commons, IT Consultant Desk
