Chromebook Set-up to Connect to the “UWMWiFi” Option

NOTE 1: To complete the set-up process and connect, you must be in a building with UWM WiFi. Visit the Student Union, Golda Meir Library and other select UWM buildings. To view the building list, visit UWMWiFi.uwm.edu, click on “WiFi Availability” link.

Step #1:
Click on the wireless icon in the lower right hand of the computer.

Step #2:
From the corresponding menu that appears after clicking the wireless icon, click the “Wireless Network” option.

Step #3:
Select “UWMWiFi.”
Step #4:

Make the following changes to the corresponding dialogue box.

(A) Select “PEAP” for EAP method

(B) Select “MSCHAPv2” for Phase 2 authentication.

(C) Select “Do not check” for Server CA certificate.

(D) Make sure “None installed” is selected for User certificate.

(E) Enter your ePanther I.D. in the “Identity” field.

(F) Enter your password in the “Password” field.

(G) Leave “Anonymous Identity” blank.

Make sure “Save identity and password” is checked.

DO NOT check “Share this network with other users.”
Step #5:

After you have entered all the information in Step 4, click “Connect.”

This device should now be set up to use the secure “UWMWiFi” option.
- If above steps taken, try these instructions again.

Questions? Problems? Contact the UWM Help Desk at 414-229-4040 or at GetTechHelp.uwm.edu
