**ePanther Password Change**

**Reconnecting to UWMWiFi on iOS devices**

**NOTE 1:** If you already have your iOS device (iPhone, iPod Touch or iPad) set up for UWMWiFi, you may not be able to connect to the UWMWiFi option after you change your ePanther password.

To rejoin the UWMWiFi network, follow these instructions.

**Step #1**

Click “Dismiss” if you receive a warning about not being able to connect to UWMWiFi.

![Image of Settings screen with Wi-Fi option selected](image1.png)

**Step #2:**

Navigate to:

Settings ->WiFi

And tap on the blue arrow to the right of UWMWiFi.

![Image of Settings screen with Wi-Fi option selected](image2.png)
Step #3:
Click “Forget this network.”

NOTE 2: If you do not see “Forget this Network,” skip to page 5.

Step #4:
Confirm by tapping “Forget”
Step #5:
Back on the “Choose a network” screen, select UWMWiFi.

Step #6:
Enter your ePantherID and new password and tap “Join.”

Step #7:
Accept the Certificate.
You should now see “UWMWiFi” as your selected wireless network.
NOTE 2: If you did not see “Forget this Network” in Step 3, follow these instructions to get reconnected to UWMWiFi. You can safely ignore these instructions if you have already reconnected to UWMWiFi using the previous steps.

Step #1a:
Go to Settings -> General -> Profile -> and tap on the UWMWiFi profile

Step #2a:
Tap “Remove.”

Step #3a:
Click “Remove” to confirm the removal of the UWMWiFi profile.
Step #4a:
If prompted, enter your iOS passcode.

Step #5a:
Go to Settings -> Wi-Fi and connect to Public.
Step #6a:
Once connected to Public, open up a Web browser and go to the Apple Automated Installation Web page at UWMWiFi.uwm.edu. Once on the UWMWiFi.uwm.edu page, tap on “Apple Automated link.”

Step #7a:
Read the Liability Release for the Automated Tool for UWM WiFi and the click on the “Apple automated tool” link.

Step #8a:
To complete the download, enter your ePantherID and password when prompted.

Step #9a:
To The following screen will appear. Tap install.
Step #10a:
The following screen will appear with information about what the Profile will do. Tap install.

Step #11a:
If the device has a passcode lock, type in the code.

Step #12a:
Now go into Settings -> Wi-Fi then tap UWMWiFi.

Step #13a:
Type in your ePantherID and new password. Then tap “join.”
You should now see “UWMWiFi” as your selected wireless network.

You have now configured your device to connect to the “UWMWiFi” option when you enter a building with UWM WiFi.
