Course Description  
This introductory course will compare and contrast the political and socio-economic systems of several states—industrialized and developing, democratic and authoritarian. We begin with a theoretical introduction and consider central issues such as political culture, institutions, political crises and discontinuity (i.e. revolution and dictatorship), and economic development. We then examine the following six case studies: two Western European democracies (Britain and France), a former communist regime (Russia), a reformed communist regime (China), a developing state (Mexico), and finally our own presidential democracy (the United States).  

Grades  
Grades will be based on two midterms (25% each), one final exam (30%), and attendance (10%) and participation (10%). No make-up exams will be given without a medical excuse or an excused University absence. Students must also produce the appropriate documentation stating why they were not able to be in class at the exact time of the exam. If you have a problem or miss an exam, get in touch with me immediately (beforehand if possible). If you miss an exam without giving me prior notice, you MUST contact me within 24 hours of that exam or you will not be allowed to take a make-up exam under any circumstances.  

Class attendance and participation are required and will affect your grade. Attendance will be taken during each lecture. Be sure to sign the attendance sheet each time that class meets. Students may not miss more than two lectures without it negatively affecting their grade. Participation grades will be based on the best five (of six) participation essays/notes and in-class participation during discussion. The participation discussion questions will be posted on D2L the week before they are due and will be collected at the beginning of class on the day of the scheduled discussion, as noted on the syllabus. The discussion notes will be graded as follows: check+ = A; check = B; check- = C. Anything below a check- will not count towards the participation grade.  

Assuming that there are no changes in the schedule, the midterms will be given on Tuesday of the 7th week (October 14, 2014) and Thursday of the 11th week (November 13, 2014). The final exam will be cumulative and is on Wednesday, December 17, 2014, 12:30-2:30 p.m. If you are a student that needs accommodations in order to meet any of the requirements of this class, please contact me during the first two weeks of class.
