Objectives  
In this class, we review the literature in political science on international conflicts. These include Realism (i.e. balance of power theory, power transition theory), Rational Choice Theory in international conflict (i.e. expected utility theory of war), terrorism, the political economy of defense spending, deterrence, democratic peace, the trade-conflict nexus, long cycle theory of war, and civil wars.

Requirements  
2 exams (30 percent each): You will be tested on the assigned readings. Exams will have multiple choice questions and a short essay. The essay question will be graded separately after the exam period is over.  
10 Discussions (3 percent each)  
A research paper (10 percent): Students are free to choose the topic of the paper related to international/civil conflicts. Turn in the paper to the dropbox on D2L.  
Term Paper Guidelines: The length requirement is 6-8 pages (regular font of Times New Roman with 12 point font size and 1 inch margin). You MUST have at least FIVE references.  
1. You MUST have a clearly and narrowly defined question. I suggest you develop a research question in a literally question form. For instance, what led North Korea to develop nuclear weapons? Do arms races lead to conflicts?  
2. In the introduction, you introduce the research question and describe why the question is meaningful/interesting.  
At the beginning of the body, you provide background information. If it is a case study or analytical paper, you provide historical information so that the reader can understand the background. If it is a theoretical paper, you provide a literature review on the subject.  
3. In the main body of the paper, you provide your answer to the research question. You MUST provide evidence to back up your argument/answer to the research question.  
4. In the conclusion, you summarize what you did in the paper and discuss implications of your study.

Readings  
All the readings will be available at the course site under CONTENT.
Grades

Exams will have multiple choice questions and a short essay question taken through the D2L site. You can take exams at any time during the week it is available, but you will only have one opportunity to take it. Once you begin the exam, you MUST finish it. You cannot start an exam, then enter again at a later time to finish it. Also, exams will be timed (50 minutes), so you will have a set amount of time to take the exam once you begin. You should make sure that you have set aside the whole time allotted to take the exam just in case you need it. You should also make sure that you have a secure connection before you begin. Internet connection problem cannot be an excuse for not finishing it in time. You should study and prepare for these exams in the same way you would any closed-book exam and be prepared to complete the exam on your own.

You will get full credit for your discussion response as long as it is 200 words long and you comment on another student’s response. Again, your response MUST be at least 200 words in length. If your response is shorter than 200 words or if your response is posted late or if you fail to comment on another student’s response, you will get partial credit for your discussion response. There will be no credit for late comment on another student’s post. You are required to post your response to the discussion question(s) in the “Discussion Questions Forum” on the D2L site by Sunday at midnight. Keep in mind that all responses and posting on the Discussion Questions forum must follow the rules of behavior we would observe in the face to face classroom. Your responses to the discussion questions should address the question itself and demonstrate that you understand the topic under discussion. When you respond to someone else’s post, do so with respect and thought. Personal attacks or excessive opinion-spouting will not be tolerated. You should engage each other’s ideas and respond in a thoughtful, constructive, informed manner.

There is no other extra credit or curve. Any student who cheats on an exam or commits any other act of academic dishonesty (e.g. plagiarism) will receive an F for the course and will be referred to the appropriate University authorities. Copying someone else’s work without proper quote or citation is plagiarism. You MUST avoid plagiarism when you post your response to discussion questions and research paper.

Flow of the Class: For this course, a week will start on Monday at 12:01 AM and end on Sunday 11:59PM. I post a few key questions under Lecture Notes to help you what to focus in your reading. Posted my lecture notes combined with the readings from the textbook, will constitute the materials for the week. You are expected to do the reading, access the lecture notes, and answer the discussion question and comment on another student’s post (This is your responsibility).

Please remember that I will be sending everything to your UWM e-mail accounts. If you don’t regularly use that account, make sure you check it or forward it to an account you do use regularly (This is your responsibility). When you need to e-mail me something for the class, send it to me at heouk@uwm.edu.
