**Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion.**

Individuals with advanced degrees, usually in Psychology or a closely related field, are eligible to apply to the doctoral program in Clinical Psychology. However, no more than 2 students with M.A./M.S. degrees in Clinical Psychology will be accepted into the Clinical Psychology PhD program in any given year.

Entry with a Clinical Psychology Masters degree sometimes results in beginning the program in the second year curriculum, resulting in faster degree completion; this is determined on an individual basis depending on the nature of the masters-level experiences,

Equivalent coursework taken elsewhere as a graduate student may substitute for one or more of the required courses.

Waiver of a required practicum course requires the consent of the major professor and the DCT.

Waiver of a required lecture course requires the consent of the major professor, instructor of the course in question, and the DCT.

Demonstration of proficiency is typically required before a waiver is granted.
