A note from the Director:

In order to help save mailing costs, this is the only correspondence that you will be receiving from College for Kids/Teens (CFK/CFT). If you enroll in additional classes at a later time another confirmation reflecting the new classes will be sent.

Please read the confirmation(s) carefully. Call 414-227-3360 right away with any corrections to the student information, class title, date, time or grade level. If you receive your confirmation after June 1st, please call us at 414-940-1UWM (1896).

As a result of registering, included in this email or mailing you will receive a confirmation, parental consent form, and this summer preparation newsletter.

Please complete the Parental Consent Form with this newsletter for each child and return it to our office as soon as possible.

Mail forms to:
161 W. Wisconsin Ave. Ste. 6000, Milwaukee, WI 53203

YOUR CHILD WILL NOT BE ALLOWED TO PARTICIPATE IN CLASSES UNTIL THE PARENTAL CONSENT FORM IS ON FILE.

Check-In
On the first day of the first class, you will need to come into the Union Terrace located on the ground floor (street level) of the UWM Student Union, 2200 E. Kenwood Blvd., with your child 30 minutes prior to his/her first class to make sure you have completed all the proper paperwork. If your child is signed up for multiple classes in multiple sections, you only need to do this once during the summer. Please use the catalog or website to refer to your class dates and times. We highly recommend writing this information on your printed confirmation sheet and bringing it to check-in on your first day of class(es).

Your child will receive his/her CFK/CFT drawstring backpack when all of the paperwork is complete. To avoid long lines you may turn in the paperwork and receive your backpack Monday – Friday starting the first full week of June. Our summer office is located in the UWM Student Union, Room W179.
CFK/CFT will be providing color coded bands in order to easily identify our kids on campus. Bands will be similar to those used at amusement parks. Wristbands are color coded and tell the staff what privileges your child has, such as leaving campus unattended or participating in before and/or after care. Wristbands are given out on the first day of a session or discovery camp and are to be worn each day of participation in the program. At the beginning of a new session, turn in your old wristband for a new one. Please ensure your child wears the wristband daily or your child will not be allowed to participate in class. If your child has lost or left their wristband at home they will need to pay $3 to get a replacement band ($20 for replacement of orange wristbands without the original). No exceptions. This money will need to be paid before they can go to class. If someone does not have money for the replacement of the orange band they will be given a yellow band (lose all orange band privileges) until they have paid the $20 replacement fee. If you have any questions, feel free to give us a call.
SAFETY INFORMATION:

To ensure a pleasant and safe experience for you and your child(ren) please read the following:

- Familiarize yourself with the UW-Milwaukee campus prior to the start of classes.
- Outside of the supervised chaperone service between classes you are responsible for students at any point of the day that they are not enrolled in class or before/after care. If you would like the student to meet you at a different location on campus, there is a spot to sign on the parental consent form allowing the student to leave unattended (orange band). Please make sure you sign in the appropriate location, or they will need to stay with our staff.
- Wristbands are mandatory and are required to be worn at all times during the program. Wristbands not only indicate that participants are in our program, but they also include our phone number. We can be reached at 414-940-1896 or the campus police (4627) can be reached at any campus phone. Campus phones are located throughout every building.
- Located throughout campus are the “Blue Light” emergency phones. These phones have direct lines to the campus police.

CHEMISTRY

Please go over the safety and laboratory procedures with your child before he or she attends class.

GENERAL COMMENTS TO PARENTS:
This chemistry course offers a well-supervised environment for your child to learn some basic principals of scientific investigation. The exercises allow each student to perform a series of simple experiments at his/her own pace. At times the student will work with potentially harmful compounds (acids and bases), but most of the hazards arise from improper or unauthorized handling of these compounds. As long as your child follows the directions and is responsive to the supervision provided, there is very little potential for harm. Improper behavior such as disobedience or unauthorized experimentation can put your child and all the others in class at risk, and will not be tolerated.

If you wish to visit your child during lab, please check in with the instructor. Accidents in laboratories are caused by improper or careless procedures. Laboratory classes are designed to teach students the proper techniques of chemistry, and this includes habits of safety. Observance of precautions will avoid accidents.

LABORATORY SAFETY TIPS AND PROCEDURES

AVOID CUTS AND LACERATIONS
1. Protect your hands with a towel when inserting either glass tubing or thermometers into stoppers or thermometer adapters.
2. Lubricate stoppers or adapters with water or glycerin before inserting glass tubing or thermometers. Report any cuts to the instructor or volunteer so that the injury may receive proper attention.

PROTECT YOUR EYES
1. Safety goggles will be worn in the laboratory any time there is laboratory work in progress by any student. Remember your neighbor could have an accident even though you are not doing lab work. Failure to comply with this precaution could result in the suspension of laboratory privileges.
2. Avoid looking into the mouth of any reaction vessel in which a reaction is in process.

GENERAL PROCEDURES
1. If chemicals are spilled on the skin or eyes, immediately flush the skin or eyes with running water for at least 15 minutes and call for the instructor or a volunteer. If chemicals are spilled on the clothes, removed them and flush the skin with water.
2. Report any fire to the lab instructor, regardless of how minor.
3. Report any burns to the lab instructor so that proper treatment may be administered.
4. Keep gas and water valves closed except when in use.
5. Be neat in your work. If you spill something, clean it up. If liquids drip down the side of a bottle while pouring, wash the bottle off. Clean your bench space at the end of each lab period. Each lab period two students will be asked to clean the community areas of the lab.
6. EATING and DRINKING are not allowed in the laboratory.
7. If any chemical is spilled or thermometer broken, please let your instructor know so he or she can clean it up immediately.
PARKING INFORMATION

Read Signs and Meters Carefully. CFK/CFT is unable to do anything about parking issues.

- Do not leave your car unattended in the Union Circle, you will be ticketed by campus police and there is nothing we can do about it! A parking ramp is available just to the east of the Union Circle.
- The Parking and Transit Office is located on the ground floor of the Student Union, Room WG 25. Hours are: Monday through Friday 8:00 am – 4:30 pm.
- You may pay at the “Pay Station” kiosks found in the campus lots. Rates vary depending on location. Chapman/Enderis & Garland/Library are $2/hour after 4pm on weekdays. Sandburg (available 24 hours/day) and EMS, Zelazo & Science lots are $1.50/hour. All other surface lots are $1/hour. In the Union & Lubar, rates are $2/hour. If you have any questions about parking feel free to give us a call at 414-940-1896 or the Parking & Transit office at 414-229-4000. Please notes rates may change at any time.

CAR PICK-UP PROCEDURES

Since our pick up location is very limited with space it can get very congested. We have put together a car pick-up procedure CFK/T families must follow if they choose to get in the pick up line. Please be patient as the children’s safety is our number one priority and we will try to move the cars through as quickly as possible. It usually takes less than five minutes to clear the entire area.

Parents/Guardians have the opportunity to pick up their child(ren) at the Union circle in front of the UWM Student Union located at 2200 E. Kenwood Blvd. Vehicles coming west on Kenwood enter the entrance on the north (right) side. The first set of 8-10 vehicles that arrive are able to park temporarily on the inside lane and can remain in the vehicle until their child(ren) come out. We ask that vehicles move as far forward in this inside lane as possible and continue to move forward every time a car leaves.

Any vehicles that are not one of the 8-10 vehicles in the inside lane will be sent through the quick pick up outer lane unless a spot opens up in the inside lane for you to move into. Please note that you cannot park in the outer lane. This is for quick pick up only, meaning your child must be seen and moving towards your vehicle in order for you to stop at any time. If your child(ren) are not present you MUST move through the semi-circle and come back around. Parking attendants will be helping us keep this lane clear.

We are not able to block the sidewalk or bus stop areas. Although cars may be stopped in front of the bus area just before the semi-circle entrance when a bus is not currently there, they MUST move and come back around if a bus comes. Any vehicles in that bus stop area will be directed to move.

If you would like to have a smooth pick up we suggest you arrive 5-10 minutes after the class end time. By this time the semi-circle should be clear and an easy drive through for you. Keep in mind we will make sure your child is properly supervised at all times. We highly recommend you picking up during the following times: 11-11:20am,, 1:30-1:50pm and 4-4:20pm.
