COLLEGE FOR KIDS & TEENS
Keep Young Minds Active All Summer Long!

WHAT'S INSIDE
Creative Arts
Humanities/Social Sciences
Languages & Cultures
Math & Computers
Science
Registration Opens January 16 at 10am
uwm.edu/sce-kids
What is College for Kids and Teens?

College for Kids and Teens (CFK/CFT), through the School of Continuing Education (SCE), is a hands-on enrichment program for students entering grades K-12 who have high academic potential, motivation and talent. Established in 1980, the program consists of one- and two-week classes in Creative Arts, Humanities/Social Sciences, Languages & Cultures, Math & Computers, and Science. Taught by UW system faculty or highly qualified and experienced instructors, all programs provide an “academic edge,” and class sizes are limited to 16 students unless otherwise noted.

When and Where?
Classes are held Mon-Fri, June 11-Aug 10 on the UWM campus, unless otherwise noted. Specific class dates/times are included in course descriptions.

Registration Policy
Once your child or teen is registered there are no refunds or transfers. Refunds are made only for classes canceled by CFK/CFT.

How Do I Register?
Registration opens Jan 16, 2018 at 10am. Call, fax in your registration, or go online to uwm.edu/sce-kids to enroll.

(Note: Mailed registrations add several days to the registration process and lessen the likelihood of availability in your desired class.)

Confirmation of Registration
Your receipt and parental consent forms will be emailed to you for completion and return. If you do not provide an email address, you will receive them by mail. You may also visit uwm.edu/sce-kids to download consent forms right away. All participants are encouraged to have their own health insurance, as only limited secondary accident insurance is provided by the University.

Please note: Confirmation dates reflect the entire summer program – June 11-Aug 10. Please refer to the catalog or website for specific dates and times of your registered classes.

Please Note
• Kindergartners must be five years old by June 11, 2018 and must have prior five-days-a-week school experience to participate in our program. This rule will be strictly enforced and children who do not meet this requirement will be subject to immediate withdrawal without a refund given.
• When registering for CFK and CFT, use next year’s grade level.
• Some classes are designed for a broader range of students (e.g. grades 6-12), and others are more specifically targeted – look for grade levels listed next to each program number.
• Select courses have a $5-25 computer lab or material fee included in the price.
• For chemistry classes, closed toe shoes must be worn at all times, no flip flops or sandals.
• For dance and theater classes, students must bring another pair of shoes to change into in order to participate. Please make sure your child brings appropriate shoes to class each day, no flip flops or sandals.

IN PARTNERSHIP WITH:
Before and After Care
To make things easier for students and parents, we offer supervised care in the Union Terrace before and after the program day, for a minimal charge. Chaperoning children to or from class is included in the fee. Come early or stay late. You must sign up for the full week.

• Before Care:
  7:30-9am – $25/week or $45/two-week session

• After Care:
  4-5:30pm – $25/week or $45/two-week session
Kindergartners must be five years old by June 11, and must have prior five-days-a-week school experience to participate in our program. This rule will be strictly enforced and children who do not meet this requirement will be subject to immediate withdrawal with no refund given.

Discount – If registering for six or more classes, please use discount code CFK6PLUS to receive 15% off. Does not include before or after care.

The UWM Writing Project – Young Writers’ Academy

Back by popular demand, this University of Wisconsin-Milwaukee Writing Project’s (UWMWP) camp is for aspiring writers who are entering grades 6th through 8th. During the camp, we meet each day in writing groups. This camp is facilitated by Teacher-Consultants (TCs) experienced writers and teachers who are involved in the UWMWP—and these TCs have a common goal of inspiring the imaginations and composition skills of young writers! We will write daily in a creative, supportive environment. While writers of all abilities are welcome, we will focus on some introductory concepts as well as more nuanced, stylistic skills.

During the Young Writers’ Academy, student writers will:

- Explore a variety of genres, including poetry, short fiction, essay/narrative, and more.
- Receive individual instruction and feedback in small groups from UWMWP TCs.
- Learn introductory and foundational writing techniques used by professional writers.
- Meet and share writing with young writers from all around the state and country.
- Engage in the entire writing process: brainstorming, drafting, revising, and editing.

Because this writing academy is sponsored by the UWMWP, we utilize a strong curriculum anchored by low teacher-to-student ratios (1 instructor for every 5 or 6 students). This allows us the opportunity to build an authentic rapport with student writers, which ultimately allows us to foster a stronger writing community.

The Young Writers’ Academy culminates in a celebration of writing at the end of the week, where students are encouraged to share their favorite pieces! New and returning participants are welcome to attend!

$229
Megan Sampson
8410-0479, June 25-29, 9am-1:30pm
Gr. 6-8, Discovery Camp 1

Note: There is a 30-minute, supervised lunch break every day. Please make sure students bring a bagged lunch or, if they have permission to leave unattended, they may bring money to purchase lunch in the student union.

For more information uwm.edu/sce-kids 414-227-3360

THE UWM WRITING PROJECT - Introductory Teen Writing Academy

Sponsored by the University of Wisconsin-Milwaukee Writing Project, this writing class is designed specifically for teen students who are interested in practicing writing across three genres: Fiction, Poetry, and Non-Fiction/Essay. These classes are facilitated by experienced writers and teachers—trained Teacher-Consultants with the UWM Writing Project—who will introduce writing activities that are fun, helpful, and inspiring to the imagination.

During the Introductory Teen Writing Academy, student writers will:

- Explore concepts from three genres, including poetry, short fiction, and creative nonfiction/essay.
- Choose two genres and produce polished written pieces.
- Learn writing techniques used by professional writers.
- Receive individual instruction and response in small groups.
- Cultivate an initial writing process: brainstorming, free writing, drafting, and revising.
- Celebrate writing with a culminating community event designed to share writing with parents, teachers and peers.

Since this is a writing academy sponsored by the UWM Writing Project, we utilize a strong curriculum anchored by low teacher-to-student ratios (1 instructor for every 5 or 6 students). This allows us the opportunity to know writers as individuals and foster a stronger writing community.

This camp is open to all students, grades 9-12, who are interested in writing, even if they have not participated in other writing programs (some background in writing is welcomed and encouraged but not mandatory). Students can bring previous work but will spend the week focusing on new writing projects that fit within our three genres.

$229
Megan Sampson
8410-0081, July 16-20, 9am-1:30pm
Gr. 9-12, Discovery Camp 2

Note: There is a 30-minute, supervised lunch break every day. Please make sure students bring a bagged lunch or, if they have permission to leave unattended, they may bring money to purchase lunch in the student union.
Creative Writing Camp for Teens: Advanced Writing Academy

This week-long writing camp is for any high school writer who would like to learn and practice advanced writing techniques related to fiction, poetry, and various academic genres of writing. This camp will include an overview of those three genres as well as activities that will help with invention, feedback, revision, and publishing. In addition, a professional instructor who is interested in teaching and writing will cover the following:

- Reading samples from fiction, poetry, and academic writing genres.
- Writing within each genre with focus placed upon specific, advanced techniques.
- How to warm up the writing brain with fun and engaging opening writing activities.
- Practicing writing techniques in a supportive and exploratory environment.
- Peer review feedback from fellow teen writers and the instructor.
- An overview on how to and where to submit work for publication.

While writers who have experience in other writing workshops and camps are the target audience for this camp, no experience is necessary for those students who also want to join our strong community and learn for the first time. Participants will receive a personal journal to write in throughout the week and are encouraged to bring laptops or portable writing devices that will help them type out their work.

The week will also culminate with an open sharing event where students can invite family and friends to hear the work cultivated throughout the camp by all writers. If you’re interested in a fun and supportive writing environment, please come join our writing community!

$199
Sara Skiba
8440-0144, Aug 6-10, 9am-1:30pm
Gr. 9-12, Discovery Camp 4

Note: There is a 30-minute, supervised lunch break every day. Please make sure students bring a bagged lunch or, if they have permission to leave unattended, they may bring money to purchase lunch in the student union.

Mini-Courses Summer ACT Preparation Class

Prerequisite: Students must have a core GPA of 2.5.

Designed to help prepare 11th and 12th graders for the official ACT college entrance exam, you’ll cover math, reading, English, science reasoning and test-taking strategies. An unofficial ACT pre- and post-test experience opportunity is included. The Mini-Courses office will contact you directly once you are officially enrolled to schedule. Available dates for the pre- and post-tests are listed below.

PRE-TEST date options:
Sat, July 15, 8am-12pm OR
Mon, July 17, 5-9pm

POST-TEST date options:
Sat, Aug 5, 8am-12pm OR
Mon, Aug 7, 5-9pm

$195
Mini-Course ACT approved instructors
8440-0069, July 23-Aug 3, 2-4pm
Gr. 11 & 12 only, Session III
Limit 30 students

Note: There will be absolutely no make-up dates, and if you register for this class after the scheduled pre-test dates, you will not have the opportunity to take that test.

Marine Mussel Exploration - One-Week WATER Field Adventure

Freshwater Ecosystem & Investigative Reporting for 5th-8th Graders

During the last 20 years the Great Lakes Basin and the surrounding freshwater areas have been inundated by two non-native dreissenid mussels, the zebra mussel and the quagga mussel. Millions of these mussels have crowded out native species, cleared the water column and posed a danger to the water system. We’ll collect and analyze water quality data in the Milwaukee River, the river basin, an inland lake, and in Lake Michigan in an effort to locate the dreaded invaders and identify the abiotic and biotic factors that support them. This field based adventure will have students outside each day to collect data using a variety of scientific instruments, wading in rivers, snorkeling in a quarry, and boarding the R/V Neeskay (the School of Freshwater Sciences’ research vessel) to travel on Lake Michigan. Students should be comfortable in and around water and prepared to be outdoors for the majority of our time.

$379
Liz Sutton
Aug 3-7, 8am-4pm
Gr. 5-8

To Register: Contact Liz at emsutton@uwm.edu or 414-382-1718

Note: This class meets at the UWM School of Freshwater Sciences, 600 E Greenfield Ave, Milwaukee, WI 53204
CREATIVE ARTS

Classes are organized by grade level as well as by subject area. Courses that are offered for multiple grade levels are listed below, followed by courses only available for specific age groups. Please note that the curriculum increases in complexity for each grade level.

MULTIPLE GRADE LEVELS

NEW! American Map with Milk Cartons
Using hundreds of milk cartons, students organize the United States of America map.

$99
Seon Joo So
8410-0428 June 11-15, 2-4pm
Gr. 3-5, Discovery Camp Plus
8410-0137 Aug 6-10, 9-11am
Gr. 3-5, Discovery Camp 4

NEW! Beginning Song Writing
Learn techniques that will help you to write your own songs and work on writing one! Learn about the art of melody, lyrics, chords and song form. Some music reading and/or instrument playing ability is preferred.

$154
Princess High

Exploring Martial Arts
Learn about the different types of martial arts and the countries they come from. Discover how martial arts were used in the past and how we use them today. Students will learn some basic movements, including stances, blocks and kicks, as well as verbal defense (using words to deescalate a conflict). This is a high-energy, interactive program, with an emphasis on respect toward teachers, parents and peers, and using self-discipline at school and at home. Students completing the class will earn their white belts and have the opportunity to earn an achievement medal by practicing and completing acts of self-discipline at home. Please note an additional per student fee of $10 will be applied to cover the costs of belts and boards (for breaking), please bring cash or check (payable to: J.K. Lee Black Belt Academy) to first day of class. This class has K5-5th and 3rd-8th grade ranges.
$154

GRADE K5-2

NEW! Sharing the Planet: An Investigation of Animals and Habitats
An investigation into animals and their natural habitat. Students will discover animals and how they survive in their habitats while gathering knowledge and using their creativity. Come explore the world we share and the species who live here.
$154  
Instructor: TBA  
8410-0002 July 9-20, 9-11am  
Gr. K5-2, Session II
Ahoy There, Matey!
Study the seven seas and learn all about the pioneering people who discovered and used them… for better and for worse. Columbus and Magellan made their names by riding the tides, but there were many others. “Jack Sparrow” and other pirates worked sea to sea. Learn about the different types of ships they sailed, the different jobs that the shipmates had and assemble your own ship’s crew. Find out what the pirates wore and ate. Join us on the last day for a treasure hunt and pirate party. Please note to bring an old shoebox to class on the first day.

NEW! Fairy Tales on Trail
The Bear family has pressed charges against Goldilocks, accusing her of trespassing, damage to property and robbery! You will participate in trials to determine whether Goldilocks and other fairy tale characters are guilty or innocent of their accused crimes. Learn how to defend or prosecute Goldie. You will learn to work as prosecution and defense teams as well as to deliberate and make decisions, study trial procedures and understand and use legal terms.

8410-0495 June 25-29, 2-4pm
Gr. 6-8, Discovery Camp 1

AMERICAN MUSIC

American Music
Learn about the music that helped shape America. Compare the styles of the early times to where music is today.

$154
Eric Czyzewski
8410-0433 June 18-29, 11:30am-1:30pm
Gr. 6-8, Session I

GRADES 6-8

Languages & Cultures

Humanities/Social Sciences

LANGUAGES & CULTURES

American Sign Language
Learn the basics of sign language using games, videos and art projects. Grow a vocabulary of words you can sign, and learn more about the deaf culture.

$99

MATH & COMPUTERS

Classes are organized by grade level as well as by subject area. Courses that are offered for multiple grade levels are listed below, followed by courses only available for specific age groups. Please note that the curriculum increases in complexity for each grade level.

MULTIPLE GRADE LEVELS

Algebra Camp
Develop an understanding of some basic algebra concepts as you build models and use exercises to practice your algebraic-thinking skills. No previous knowledge of algebra is necessary for this fun and informal course.

$99
Steve Augustine
8410-0475 June 25-29, 9-11am
Gr. 6-8, Discovery Camp 1
8410-0079 July 16-20, 9-11am
Gr. 9-12, Discovery Camp 2

Minecraft
Think Minecraft is just a video game? Think again. You can create, explore and put problem-solving skills to the test with story boarding and level design. Learn logic using machines and the mechanics behind the game. Gain a greater understanding of what makes Minecraft function so you can conquer The Nether, The end, and beyond! Please note that students are required to have a Minecraft account purchased for a PC prior to class start date and come to class prepared with login information. Registering for this class you provide permission for your child to access the Internet. Flash drive is required.

$164
Tim Nickel
8410-0043 July 23-Aug 3, 9-11am
Gr. 6-8, Session III
8410-0056 July 23-Aug 3, 11:30am-1:30pm
Gr. 9-12, Session III

NEW! Exploring the Adventures in Integrated Arts/Visual Arts

Students will explore the adventures of traditional and contemporary integrated arts, from a multicultural/diverse perspective. Imagination can be engaging, fun, exciting and educational at the same time. This is where hands-on experiences, ideas, and creative skills can be inspiring and motivating. Learn by doing and working with students’ innate ability to make something out of anything through problem-solving skills, and ability to make connections. Students are encouraged to explore, discover and develop a sense of self-expression through integrated art as they to play around with their creative energy to find different outcomes in their artwork. Please note that by registering for this class you provide permission for your child to access the Internet. Flash drive is required.

$104
Thomas Lane
8410-0141 Aug 6-10, 9-11am
Gr. 6-8, Discovery Camp 4
Limit 15 students
8410-0145 Aug 6-10, 11:30am-1:30pm
Gr. K5-2, Discovery Camp 4
Limit 15 students
8410-0159 Aug 6-10, 2-4pm
Gr. 3-5, Discovery Camp 4
Limit 15 students

NEW! Sim City EDU
In this class students are the mayors of their own cities and will learn how to create their own micro societies. Students will build a city from the ground up and complete challenges that test their ability to deal with budget concerns, traffic, zoning, pollution and maybe even aliens from above. Please note that by registering for this class you provide permission for your child to access the Internet.

$164
Tim Nickel
8410-0441 June 18-29, 9-11am
Gr. 3-5, Session I
Limit 15 students
8410-0456 June 18-29, 11:30am-1:30pm
Gr. 6-8, Session I
Limit 15 students

Sportistics
Are you fascinated by numbers? Do you like sports? Combine the two and find out how one links to the other.

$99
Instructor: TBA
8410-0099 July 16-20, 2-4pm
Gr. 6-8, Discovery Camp 2

$154
Instructor: TBA
8410-0040 July 23-Aug 3, 9-11am
Gr. 3-5, Session III

GRADE K5-2

#10 and Beyond
Calling all young minds with a curiosity for numbers! Learn mathematical concepts, including patterning, place value, shapes and estimating, to solve problems and challenges. Please note this is not a skill-building class. Children must know and recognize numbers 1-10 before class begins.

$154
Princess High
8410-0025 July 9-20, 2-4pm
Gr. K5-2, Session II

Charts & Graphs Everywhere!
Graphing, charting and organizing data can be a lot of fun. Discover many things to graph, such as gummy worms, M&M’s, the number of times you can hop on one foot, and more! Please let us know if your child is allergic to any foods before the start of class.

$154
Amy Domagalski
8410-0058 July 23-Aug 3, 2-4pm
Gr. K5-2, Session III
NEW! Computer Skills for Kids
In this class we will learn some basic computer skills such as keyboarding, Microsoft Office and safe internet exploring. Please note that by registering for this class you provide permission for your child to access the Internet.

$164
Thomas Lane
8410-0001 July 9-20, 9-11am
Gr. K-2, Session II
Limit 15 students

Games Galore
Join us as we explore kid friendly games and what makes them fun. After playing games we follow up by writing about our experiences and sharing our ideas. Please note that by registering for this class you provide permission for your child to access the Internet.

$104
Instructor: TBA
8410-0426 June 11-15, 2-4pm
Gr. K-2, Discovery Camp Plus
Limit 15 students

Geometry All Around
Investigate the world as a mathematician using literature and hands-on activities. Solve geometric mysteries and play stimulating math games. Create geometric solids using everyday objects including non-traditional math tools and even food! Please let us know if your child is allergic to any foods before the start of class.

$154
Instructor: TBA
8410-0048 July 23-Aug 3, 11:30am-1:30pm
Gr. K-2, Session III

Crunchin’ Numbers
It’s okay to play with your food when you are using it to figure out how numbers work – really! Have fun learning to divide and share. Please let us know if your child is allergic to any foods before the start of class.

$99
Jen Bertrand-Laduke
8410-0083 July 16-20, 11:30am-1:30pm
Gr. K-2, Discovery Camp 2

Dice’n Up Math
Dice can be a lot of fun, especially when they help you spice up your math skills. Take a chance, roll the dice and calculate some fun in this class.

$99
Teagan Kohlbeck
8410-0490 June 25-29, 2-4pm
Gr. K-2, Discovery Camp 1

Gobble Up Math
In this class it’s okay to play with your food! You’ll eat up activities about patterns, measurements, fractions, and geometry. What a delicious way to learn about math! Please let us know if your child is allergic to any foods before the start of class.

$99
Carrie Sullivan
8410-0112 July 30-Aug 3, 11:30am-1:30pm
Gr. K-2, Discovery Camp 3

Everyday Math
This class is designed to engage students with stimulating mathematical themes and objects they encounter in their everyday lives. We provide explicit instruction and age-appropriate activities that encourage children to think about, talk about and explore math concepts and skills. This class explores place value, fact families, telling time to the hour & half-hour, and generating numeric patterns.

$99
Jordan Lind
8410-0471 June 25-29, 9-11am
Gr. K-2, Discovery Camp 1

Got Math?
Believe it or not, math can be fun. In this class you will brush up on your math skills while playing math games. Enjoy!

$99
Teagan Kohlbeck
8410-0093 July 16-20, 2-4pm
Gr. K-2, Discovery Camp 2

Math and Memory Games
Test your memory skills as you learn math along the way.

$99
Instructor: TBA
8410-0158 Aug 6-10, 2-4pm
Gr. K-5-2, Discovery Camp 4

Geometry All Around
Investigate the world as a mathematician using literature and hands-on activities. Solve geometric mysteries and play stimulating math games. Create geometric solids using everyday objects including non-traditional math tools and even food! Please let us know if your child is allergic to any foods before the start of class.

$99
Amy Domagalski
8410-0146 Aug 6-10, 11:30am-1:30pm
Gr. K-2, Discovery Camp 4

Money Matters
Little minds learn how to identify coins, what their value is and how to make purchases with confidence.

$154
Princess High
8410-0437 June 18-29, 9-11am
Gr. K-2, Session I

Musical Math
Catchy, familiar tunes you know and love are combined with fun, rhyming lyrics to describe essential math skills. Strengthen your math skills through fun melodies and rhythms.

$99
Princess High
8410-0135 Aug 6-10, 9-11am
Gr. K-2, Discovery Camp 4

GRADE 3-5

Algebra + Mazes = Amazing Fun!
Discover how to solve hands-on equations to learn the basics of algebra. Solve equations (3x + 5 = x + 19) using pawns and cubes. Strengthen your math knowledge and practice algebra in the real world.

$99
Thomas Lane
8410-0094 July 16-20, 2-4pm
Gr. 3-5, Discovery Camp 2
Be a Math Genius!
Does your child feel overwhelmed with math? Come join us to improve your math talent while learning all the skills to excel in everyday math.
$154
Teagan Kohlbeck
8410-0439 June 18-29, 9-11am
Gr. 3-5, Session I

Computer Coding, Puzzles, and Fun!
Join us in solving challenging puzzles and developing interactive games. Create programs to solve problems and develop interactive games or stories to share. We will work with characters from Minecraft, Frozen, Star Wars, or Angry Birds. After completing the class students will be presented with a certificate for demonstrating understanding of basic concepts of computer science. Please note that by registering for this class you provide permission for your child to access the Internet. Flash drive is required.
$164
Peter Couto
8410-0061 July 9-20, 11:30am-1:30pm
Gr. 3-5, Session II
Limit 15 students

Economics, it’s Not Just for Adults!
Do you get an allowance? Do you save it or spend it? Have you ever provided a service, like pet walking or babysitting? We know you made money, but did you make a profit? These questions and tons more can be answered by knowing about economics! Economics is not just money, it’s about business too.
$154
Amy Domagalski
8410-0461 June 18-29, 2-4pm
Gr. 3-5, Session I

Explorations & Applications in Math
Focus on a new math skill each day, and then play a game to reinforce it. For example, the “Checkbook Game” will review adding, subtracting and money concepts, and “Fracto” will demonstrate fraction concepts. It’s skill and problem-solving practice made fun!
$154
Princess High
8410-0006 July 9-20, 9-11am
Gr. 3-5, Session II

From Zero to Googolplex
Mathematics is not about adding, subtracting, multiplying or dividing. It’s about the science of numbers! If you are as fascinated by numbers as the ancient Greeks, join us for a non-stop adventure of math riddles and cool calculations.
$154
Instructor: TBA
8410-0027 July 9-20, 2-4pm
Gr. 3-5, Session II

NEW! Fun with Math and Computers
In this class we will utilize classroom computers and websites such as CoolMathGames.com to explore fun problem solving and puzzle solutions. Please note that by registering for this class you provide permission for your child to access the Internet.
$164
Peter Couto
8410-0061 July 23-Aug 3, 2-4pm
Gr. 3-5, Session III
Limit 15 students

Geometry and Spatial Sense
From doing puzzles to rearranging your room, you probably use geometry more than you realize. Discover mathematical relationships through explorations and demonstrations. Improve your spatial and understanding of geometric concepts.
$99
Sara Kazmierski
8410-0484 June 25-29, 11:30am-1:30pm
Gr. 3-5, Discovery Camp 1

NEW! Magic of Math
In this class students will learn how magical math truly is. They will study numbers and math facts that seem to equate into magical outcomes. Students will be given math puzzles, challenges, and new “tricks” and techniques to solve a variety of math problems and be exposed to many math terms and concepts. Students will learn about the life and times of great mathematicians and then explore key concepts, principles and formulas introduced by the featured master. Students’ problem solving skills will be strengthened as they examine different discoveries in mathematics. Students will use experiments and manipulatives to demonstrate the formulas, theories, shortcuts or alternate approaches suggested by famous mathematicians.
$99
Thomas Lane
8410-0418 June 11-15, 11:30am-1:30pm
Gr. 3-5, Discovery Camp Plus

NEW! Money Magic
If nickels were wishes, we’d all be millionaires. Wishing won’t make money grow, but you can learn how pennies do grow into dollars. Learn about cash, checkbooks, and how the financial world really works. Explore banks, savings and loans, credit unions, and investment companies.
$99
Sara Kazmierski
8410-0473 June 25-29, 9-11am
Gr. 3-5, Discovery Camp 1

Math Contests
Each day you will compete in a different contest to test your math skills. One day it might be a math bee, the next day a round from the Math Olympiad. See how you can be challenged.
$99
Instructor: TBA
8410-0126 July 30-Aug 3, 2-4pm
Gr. 3-5, Discovery Camp 3

Real World Math
When am I ever going to use this? Now is your opportunity to put all of those math skills to use in the real world.
$99
Jen Bertrand-LaDuke
8410-0074 July 16-20, 9-11am
Gr. 3-5, Discovery Camp 2

Vacation Math
Would you like to see Mt. Rushmore, hike the Grand Tetons or visit the San Diego Zoo? Learn what it would take by planning your ultimate road trip across the United States. Calculate costs of gas, food and hotel expenses along the way as you balance your travel budget.
$99
Peter Couto
8410-0138 Aug 6-10, 9-11am
Gr. 3-5, Discovery Camp 4
Wacky World of Numbers
How can you estimate the number of seeds in a watermelon or the number of chips in a chocolate chip cookie or the number of seeds in a sunflower? Jump into creative problem solving, math games and other adventures through the wacky world of numbers.
$99
Charlene Osheim
8410-0085 July 6-20, 11:30am-1:30pm
Gr. 3-5, Discovery Camp Plus

App Inventor
Create your very own app, from the simplest app to a complex game. You will use App Inventor, a free, cloud-based application in which you create apps with blocks instead of programming in Java. Have fun while learning software engineering concepts like logics, variables, loops and data types. Please note that by registering for this class you provide permission for your child to access the Internet. Flash drive is required.
$164
Instructor: TBA
8410-0031 July 9-20, 2-4pm
Gr. 6-8, Session II
Limit 15 students

Cryptology
Explore codes and ciphers through history. Learn how people try to keep things secret - and how others try to find out those secrets. Study secret messages from the beginning of time through modern-day computer security. Students should be comfortable with mathematics to really enjoy this class.
$154
Instructor: TBA
8410-0064 July 23-Aug 3, 2-4pm
Gr. 6-8, Session III

Fit Finances
Should you save, spend or invest? Learn how to make smart decisions about what to do with your allowance.
$99
Steve Augustine
8410-0163 Aug 6-10, 2-4pm
Gr. 6-8, Discovery Camp 4

Fun with Interactive Problem Solving
Could you set the World Record for clipping paper clips together in 24 hours? How many cereal boxes fit in a classroom? What’s the probability that a 2-piece Starburst pack will have exactly one yellow Starburst? Exactly 2? In this class, we will answer each of these questions and more.
$99
Instructor: TBA
8410-0497 June 25-29, 2-4pm
Gr. 6-8, Discovery Camp 1

Geometry
Explore geometry through hands-on activities. We will practice geometry and spatial sense through a variety of activities. We will use mirrors, tangrams, pentominoes, geoboards and more!
$154
Steve Augustine
8410-0455 June 18-29, 11:30am-1:30pm
Gr. 6-8, Session I

Programming Primer
Get a step-by-step introduction to the core concepts of programming and then put your new skills to the test as you control; graphics and animations. Participants will experiment with Python, a modern, flexible programming language used in apps, games and more. Get comfortable with coding and apply your own creativity to extend and customize your projects. Please note that by registering for this class you provide permission for your child to access the Internet. Flash drive is required. An additional $10 fee has been added to the course in order to cover the charge of using the software needed.
$174
Sammi Omranian
8410-0054 July 23-Aug 3, 11:30am-1:30pm
Gr. 6-8, Session III
Limit 15 students

Roll the Dice
Explore the most popular dice, cards and other games of chance. Learn the difference between probability and odds. And use your new skills to teach your friends and family how to play, too!
$99
Thomas Lane
8410-0109 July 30-Aug 3, 9-11am
Gr. 6-8, Discovery Camp 3

Stock Market
Want to be a millionaire? Learn how the stock market works, research stocks to determine the best buys, invest play money, track your stocks, and make wise decisions on when to sell, and you'll be on your way! Plus, write and receive checks for your purchases and sales, and balance your bank account.
$154
Instructor: TBA
8410-0033 Aug 6-10, 2-4pm
Gr. 6-8, Session II

Web Page Design
Delve even deeper into the Web as you create your own webpage or improve the one you already have. Learn to use graphics, as well as a digital camera and scanner, to make your page stand out and tell your own exciting story. This is not a class for beginners. Students should have some computer experience, including use of the Internet. Please note that by registering for this class you provide permission for your child to access the Internet.
$104
Instructor: TBA
8410-0406 June 11-15, 9-11am
Gr. 3-5, Discovery Camp Plus

NEW! 3-D Printing
Learn to design and use a laser engraver and 3D printer! Students will learn to draw designs in Adobe Illustrator to then cut out acrylic and wood items using a laser engraver. We will also do 3D modeling in TinkerCAD and Sketch-up and then we will 3D print your designs and you will be able to take home cool PLA plastic objects and toys. Recommended for makers with basic computer skills. Please note that by registering for this class you provide permission for your child to access the Internet.
$104
Michael Bernard
8410-0419 June 11-15, 11:30am-1:30pm
Gr. 6-8, Discovery Camp Plus

For more information uwm.edu/sce-kids
Wall Street Wizards
Investing is all about using your money to make money. Learn when and what to buy and when to sell in this interactive course. Start out the week with the same amount of play money as your fellow investors, and see who will be the one to most effectively increase their cash.
$99
Thomas Lane
8410-0410 June 11-15, 9-11am
Gr. 6-8, Discovery Camp Plus

What is the Chance?
In this course, students develop a greater understanding of probability and statistics, two areas of mathematics that easily transfer from the classroom to the real world. Students conduct experiments and generate data which they display in graphs, charts, and tables in order to compare the effects of particular variables. Students also explore probability and the study of chance, to learn how to use numerical data to predict future events.
$154
Thomas Lane
8410-0009 July 9-20, 9-11am
Gr. 6-8, Session II

GRADE 11-12

NEW! Survey of Calculus
This course will introduce students to both the theory and the application of techniques that students would learn in a first-semester calculus course as taught at the university level, or to learn mathematical techniques that would be taught in an AP Calculus course. Understanding of how calculus techniques relate to graphs of mathematical functions will be explained.
$154
Steve Augustine
8410-0067 July 23-Aug 3, 2-4pm
Gr. 11-12 only, Session III

NEW! Business and Financial Math
This course will provide an overview of the basic mathematical relationships used in financial math and business math. Students will learn how to do a variety of calculations that will help them learn to manage their own finances, while also gaining experience with basic math calculations done in the business world.
$99
Steve Augustine
8410-0499 June 25-29, 2-4pm
Gr. 9-12, Discovery Camp 1

NEW! Pre-Calculus
Pre-calculus is the bridge between intermediate algebra and calculus, and is a great way to get acquainted with ideas about mathematical functions, their graphs, and their solutions. Learn about polynomial functions, exponential functions, logarithmic functions, algebraic sequences and series, geometric sequences and series, the domains and ranges of these function types, and the inverses of these functions. Also see the many useful applications of these functions!
$154
Steve Augustine
8410-0024 July 9-20, 11:30am-1:30pm
Gr. 9-12, Session II

Statistics and Probability
Learn about how statistics can be used in everyday life to summarize datasets and draw conclusions from them. Study mean, median, mode, range and quartiles, box-and-line plots, standard deviation, and how to find untrustworthy observations in a dataset. Then learn about using basic probability rules to study probability distributions and make predictions about them.
$99
Steve Augustine
8410-0122 July 30-Aug 3, 11:30am-1:30pm
Gr. 9-12, Discovery Camp 3

Discrete Mathematics and Combinatorics
It is good to prepare high school students in the area of Finite Mathematics and Combinatorics. The contemporary high school mathematics curriculum focuses more on continuous mathematics. But for modern computerized digital world they need to understand how we express our practical situations into machine language. To achieve the goal, they should be trained for Discrete Mathematics and Combinatorics. Please note that by registering for this class you provide permission for your child to access the Internet. Flash drive is required.
$104
Steve Augustine
8410-0111 July 30-Aug 3, 9-11am
Gr. 9-12, Discovery Camp 3
Limit 15 students

GRADE 9-12

Algebra II
Learn about intermediate algebraic topics such as rational algebraic expressions, Quadratic equations, radicals, function notation, composite, inverse and even functions, distance formula, midpoints and transformations.
$154
Steve Augustine
8410-0034 July 9-20, 2-4pm
Gr. 9-12, Session II

Developing Video Games
Have you ever wanted to develop your own video game? Use Game Maker and other related game design tools to learn how video games work and how to design one of your own. Amaze your friends and family with your creativity by developing a simple and fun game complete with sound, graphics and animation. Please note that by registering for this class you provide permission for your child to access the Internet. Flash drive is required.
$164
Instructor: TBA
8410-0468 June 18-29, 2-4pm
Gr. 9-12, Session I
Limit 15 students

Trigonometry
Study triangles and the relationships between their angles and the lengths of their sides. Learn about graphs of trigonometric functions. Enrich your math knowledge and use basic concepts of trigonometry to calculate the height of the tallest tree on campus!
$99
Steve Augustine
8410-0436 June 11-15, 2-4pm
Gr. 9-12, Discovery Camp Plus

NEW! Mind Bending Math
Great math riddles and paradoxes have long illustrious history, serving as both tests and games for intellectual thinkers across the globe. In this class you will discuss these riddles and paradoxes using games, riddles, puzzles and equations.
$99
Steve Augustine
8410-0155 Aug 6-10, 11:30am-1:30pm
Gr. 9-12, Discovery Camp 4

NEW! Survey of Calculus
This course will introduce students to both the theory and the application of techniques that students would learn in a first-semester calculus course as taught at the university level, or to learn mathematical techniques that would be taught in an AP Calculus course. Understanding of how calculus techniques relate to graphs of mathematical functions will be explained.
$154
Steve Augustine
8410-0067 July 23-Aug 3, 2-4pm
Gr. 11-12 only, Session III
SCIENCE

Classes are organized by grade level as well as by subject area. Courses that are offered for multiple grade levels are listed below, followed by courses only available for specific age groups. Please note that the curriculum increases in complexity for each grade level.

MULTIPLE GRADE LEVELS

Amusement Park Physics
Explore the world of physics through your favorite amusement park attractions like loop-the-loops, Ferris wheels, swings, roller coasters, and more. Experiment, build and learn physics concepts in a fun, hands-on atmosphere. Learn about friction, gravity, momentum, velocity and other effects of force and motion.

$154
Peter Couto
8410-0013 July 9-20, 9-11am
Gr. 9-12, Session II
8410-0030 July 9-20, 2-4pm
Gr. 6-8, Session II

LEGO® MINDSTORMS® Robotics
Learn how to build and program robots using the famous LEGO MINDSTORMS kits. Gain familiarity with servo motors, touch sensors, sound sensors, ultrasonic sensors and light sensors. Define a mission for your robot, program the robot to accomplish the mission and then test it! Please note this course helps you prepare for the FIRST (For Inspiration and Recognition of Science and Technology) LEGO League Wisconsin tournaments in fall 2018.

$154
Instructor: TBA
8410-0444 June 18-29, 9-11am
Gr. 6-8, Session I
8410-0451 June 18-29, 11:30am-1:30pm
Gr. 3-5, Session I
8410-0005 July 9-20, 9-11am
Gr. 3-5, Session II
8410-0019 July 9-20, 11:30am-1:30pm
Gr. 6-8, Session II

GRADE K5-2

1, 2, 3 Blast Off!
Let’s take a ride on a rocket ship and learn about outer space in this cross-curricular class with activities for every subject. We will visit the moon, sun, stars, and many planets! By the end of this course you will be ready to fill out your astronaut application and lead your own space expedition!

$154
Jordan Lind
8410-0014 July 9-20, 11:30am-1:30pm
Gr. K-2, Session II

Backyard Bugs
Explore nature and the environment around you by examining flying insects and slithering bugs in your backyard! Learn all about what makes bugs tick. Go on bug hunts. Build an ant house. Participate in bug races. Get up close and personal with a variety of creatures!

$99
Jordan Lind
8410-0480 June 25-29, 11:30am-1:30pm
Gr. K5-2, Discovery Camp 3

Bubbles, Balloons, Blastoff
The return of one of our most popular classes for young scientists. What’s up with bubbles? How do they hold together? Why do they pop? Did you know that balloons are the simplest aircraft? This class is for you if you are fascinated with flight.

$99
Katie Wipfli
8410-0106 July 30-Aug 3, 9-11am
Gr. K5-2, Discovery Camp 3

For more information uwm.edu/sce-kids
414-227-3360

SCIENCE

Engineering Wonders
Have you ever wondered how a bridge or airplane is made? Well, roll up your sleeves and join us as we put our heads together in engineering teams and build marvels that really work.

$154
UWM CEAS Faculty/Staff
8410-0008 July 9-20, 9-11am
Gr. 6-8, Session II
8410-0023 July 9-20, 11:30am-1:30pm
Gr. 9-12, Session II

Rocketry—Up, Up and Away!
Ever wonder how a rocket works? This is your chance to find out. Discover how rockets function, design a rocket and blast it off. If you are looking for an out-of-this-world time this class is for you.

$154
Peter Couto
8410-0041 July 23-Aug 3, 9-11am
Gr. 3-5, Session III
8410-0055 July 23-Aug 3, 11:30am-1:30pm
Gr. 6-8, Session III

LEGO® MINDSTORMS® Robotics II (Advanced)
As an advanced programmer or experienced FIRST LEGO League competitor, find the challenging and exciting adventure you’ve been looking for. Use advanced programming, special attachments and sensors, and creative problem-solving to complete missions from this year’s FIRST LEGO League competition. Please note this is not an introductory course, but an extension to LEGO MINDSTORMS Robotics.

$154
Instructor: TBA
8410-0042 July 23-Aug 3, 9-11am
Gr. 6-8, Session III
8410-0050 July 23-Aug 3, 11:30am-1:30pm
Gr. 3-5, Session III
Dinosaur Detectives
Enter the land before time. Study the dinosaurs and their lives, and examine fossils and learn how to classify them. Some plants have not changed since the times when dinosaurs had them on their menus. Find out which ones they are and much more.
$99
Becca Lind
8410-0070 July 16-20, 9-11am
Gr. K5-2, Discovery Camp 2

NEW! Kinesiology Class
Explore Olympic sports and the athletes who compete in them. Learn all about the mechanics of body movement. Get ready to get active!
$99
Nathan Tokarek
8410-0401 June 11-15, 9-11am
Gr. K5-2, Discovery Camp Plus

Into the Amazon Rainforest
Who lives high up in the forest canopy, and what exactly swims and slithers in the Amazon River far below? Meet a mighty anaconda. Encounter a 300-pound catfish. Listen to howler monkeys, touch piranha teeth, see amazing morpho butterfly wings and many other wonderful things. Discover how a very delicate balance of nature keeps a tropical rainforest alive. Oh yeah, and did you know that there’s a spider that eats birds? Come check it out!
$99
Kim Stratton
8410-0413 June 11-15, 11:30am-1:30pm
Gr. K5-2, Discovery Camp Plus

Nature’s Storytime
Discover wild places in the city to help write your own nature book. Study a different nature theme each day and use outdoor nature experiences to develop story projects. Work with classmates to create a story by drawing, writing and storytelling about animals found on our walking field trips to Riverside Park, Lake Park and Downer Woods. Please note students will take walks on campus during the two weeks.
$154
Princess High
8410-0459 June 18-29, 2-4pm
Gr. K5-2, Session I

Oceanography
Explore the oceans and think like a scientist to discover the little-known world of deep sea creatures. Investigate how humans affect marine life and experiment with creating waves of varying size to learn about wave height and wave length.
$99
Carrie Sullivan
8410-0124 July 30-Aug 3, 2-4pm
Gr. K5-2, Discovery Camp 3

Ooze, Drip, Bubble & Bounce
Get an up-close look at science with exciting and somewhat messy experiments. It’s all in the name—if you believe oozing, dripping, bubbling and bouncing make science fun, join us!
$99
Katie Wipfli
8410-0134 Aug 6-10, 9-11am
Gr. K5-2, Discovery Camp 4

STEM Challenge
Put your engineering mind to the test as we work to complete daily challenges to expand our knowledge in the areas of Science, Technology, and Math. Can you build a house to protect the Three Little Pigs? How many cups can you stack in the Seuss hat challenge? Come join in and find out how things work through fun, hands-on projects!
$154
Jordan Lind
8410-0003 July 9-20, 9-11am
Gr. K5-2, Session II

Wicked Weather
How does weather change the Earth? What do we know about weather disasters like earthquakes, floods, tornadoes, blizzards and everything else? You live with it every day — now dive in to explore the causes, effects and mysteries of weather.
$99
Katie Wipfli
8410-0113 July 30-Aug 3, 11:30am-1:30pm
Gr. K5-2, Discovery Camp 3

GRADE 3-5

Astronomy: Stellar Heroes and Monsters
Uncover the fascinating myths behind the universe’s unique cast of characters — from stellar heroes to galactic monsters. Have fun learning to use a star map and familiarizing yourself with stars in the night sky. Awesome prizes will be given to the space explorer who can identify the most constellations!
$164
Jean Creighton
8410-0450 June 18-29, 11:30am-1:30pm
Gr. 3-5, Session I

Eco-Kids Save the World
Let’s all work to understand the principles of ecology and how we can save the earth for the future. We’ll look at the air we breathe, the water we drink, and how our food is grown. We’ll learn to recycle and conserve our planet’s resources.
$99
Abbey Beine
8410-0127 July 30-Aug 3, 2-4pm
Gr. 3-5, Discovery Camp 3

Gizmos and Gadgets
Bicycles, pianos and scales are simple machines. Did you know that you use levers and gears every day? Learn a few principles of physics and create a few inventions of your own!
$99
Instructor: TBA
8410-0160 Aug 6-10, 2-4pm
Gr. 3-5, Discovery Camp 4

Glow in the Dark Science
Have you ever wondered why a firefly lights up, or how some objects glow in the dark? Discover the science behind luminescence and fluorescence as you make some eye catching projects.
$99
Kim Stratton
8410-0405 June 11-15, 9-11am
Gr. 3-5, Discovery Camp Plus
NEW! Kids Chemistry
Matter is everything around us; the things you can touch, see, feel or smell. Let’s study it! Mix a little of this and a little of that, and what do you get? It’s never too early to experiment with what might be your future. Please note closed toe shoes must be worn at all times, no flip flops or sandals.
$154
Abbey Beine
8410-0463 June 18-29, 2-4pm
Gr. 3-5, Session I

Mythbusters & More
Test some of today’s most popular scientific myths, and explore the science behind the reactions and explosions. Help us decide whether it is “truth” or “fiction”.
$99
Dan Soiney
8410-0494 June 25-29, 2-4pm
Gr. 3-5, Discovery Camp 1

Reactive Science
It is reloaded and retooled so get ready for Reactive Science. We will start with some chemistry right from the kitchen. Then we will work with the wonderful world of magnets. Next, we will try to crack the code of the egg drop (hopefully without cracking anything else). And then we will go to the air with wet and wonderful water rockets. Be prepared to get wet and muddy so dress appropriately.
$99
Katie Wipfli
8410-0449 Aug 6-10, 11:30am-1:30pm
Gr. 3-5, Discovery Camp 4

NEW! Saving Bob!
HELP!!! Bob has gotten himself into another crazy situation! In this class the students will use engineering, creativity, teamwork and imagination to rescue our hero Bob from one sticky situation after another. From evading coyotes by crossing the Grand Canyon to escaping a burning inferno of a building the students will use engineering utilizing everyday materials to help Bob to safety.
$99
Jen Bertrand-LaDuke
8410-0096 July 16-20, 2-4pm
Gr. 3-5, Discovery Camp 2

Sensory Science
Explore all of your senses in this exciting science class. These cool and simple, but effective science experiments, will have you begging for more while stimulating your mind. Come prepared to get your hands dirty with hands-on experiments.
$154
Princess High
8410-0018 July 9-20, 11:30am-1:30pm
Gr. 3-5, Session II

NEW! Incredible Edible Garden
This class encourages children to explore the fascinating garden of edible plants. Children will have the opportunity to create their own edible “garden in a bucket,” learn how to care for a garden, learn the parts of plants, create a garden superhero, make nutritional recipes using plant stamping and much, much more! Join us to dig in and give it a “Grow”!
$99
Charlene Osheim
8410-0073 July 16-20, 9-11am
Gr. 3-5, Discovery Camp 2

Brainiacs
Did you know the human brain weighs three pounds? Explore some of the facts and mysteries around our most complex and remarkable organ. Learn how it works, how to protect it and how it controls your senses.
$99
Peter Couto
8410-0153 Aug 6-10, 11:30am-1:30pm
Gr. 6-8, Discovery Camp 4

Bodily Functions!
You live in your human body, but what do you know about it? Why is your heart racing when you chase a friend? Why do you shiver when you are cold? How come sometimes you can’t tell when you are thirsty? Find out all about your blood and guts?
$99
Kelsey Clark
8410-0117 July 30-Aug 3, 11:30am-1:30pm
Gr. 6-8, Discovery Camp 3

Astronomy: The Night Sky: Facts and Myths
Observe the constellations from different locations on Earth. Learn about our galaxy and our universe with all its galaxies and the methods we use to understand it.
$164
Jean Creighton
8410-0442 June 18-29, 9-11am
Gr. 6-8, Session I

DNA & You!
DNA is one of the hottest topics in today’s world of science, and molecular biology is a driving force behind our understanding of it. Run a DNA fingerprinting scenario, and learn more about this important subject with such astonishing potential.
$99
Abbey Beine
8410-0107 July 30-Aug 3, 9-11am
Gr. 6-8, Discovery Camp 3

GRADE 6-8

Biology 101
You won’t believe all the interesting little things you’ll find using a microscope. And you get to practice dissection on food! You can learn how very, very small animals live, breathe and function!
$99
Kelsey Clark
8410-0088 July 16-20, 11:30am-1:30pm
Gr. 6-8, Discovery Camp 2

Everyday Science
It’s used to make cupcakes or to discover a cure for the flu. Everyone uses it, it’s the scientific method! Learn how to draft a hypothesis, conduct the experiment and write clear conclusions. Then, impress your family and friends with a display of your results.
$99
Kelsey Clark
8410-0097 July 16-20, 2-4pm
Gr. 6-8, Discovery Camp 2

414-227-3360
27
Human Anatomy & Physiology
Explore the human body from top to bottom, inside and outside. Take a journey through the muscular, skeletal, respiratory, circulatory, reproductive, and digestive systems of the human body. Use microscopes, models, and hand-on experiments to discover "what makes us tick."

$154
Amanda Nickel
8410-0065 July 23-Aug 3, 2-4pm
Gr. 6-8, Session III

Medical Camp
Ready to find out what medical science is really all about? Medical Campers get clinical by learning the basics of CPR and first aid (they will not be certified). They will also focus on biotechnology by exploring some possible projects such as their blood type, solving crimes using DNA, dissecting real animal specimens, creating bacterial slides to examine under microscopes, and using various medical equipment and implements and so much more! Explore the many career opportunities available in the medical field through hands-on activities, in-depth experiments and possible guest speakers.

$154
Amanda Nickel
8410-0465 June 18-29, 2-4pm
Gr. 6-8, Session I

CSI Milwaukee
Have you ever wondered how mysteries get solved? Learn the techniques involved in evidence gathering, fingerprinting and handwriting analysis, and use a microscope to examine hair and fibers. Discover what it takes to be a crime scene investigator and solve your own mysteries!

$99
Abbey Beine
8410-0435 June 11-15, 2-4pm
Gr. 9-12, Discovery Camp Plus

NEW! Design Squad Engineers
In this class we will use project-based curriculum as the design to present students with challenges that they will solve using a creative approach to engineering solutions. Students experience engineering through hands-on, creative investigation and building activities using everyday materials that can be found at your local convenient store. They will envision, design and test their hypothesis. The knowledge that the students gain and skills they build create a strong foundation and curiosity toward further Science, Technology, Engineering, and Mathematics (STEM) learning in high school and beyond.

$154
Instructor: TBA
8410-0458 June 18-29, 11:30am-1:30pm
Gr. 9-12, Session I

NEW! Introduction to Weather Science
Want to be able to predict upcoming weather events? Join this class to gain a deeper understanding on how Earth’s atmosphere is constructed, why we have seasons, how mid-latitude weather systems develop and are structured.

$99
Steve Augustine
8410-0143 Aug 6-10, 9-11am
Gr. 9-12, Discovery Camp 4

The Magic of Electricity
Explore how circuits are built, how batteries make electricity, and how to build circuits on a breadboard.

$99
Dan Soiney
8410-0487 June 25-29, 11:30am-1:30pm
Gr. 9-12, Discovery Camp 1

GRADER 9-12

Astronomy: Stars, Stories & Scale
Use storytelling and astronomy to understand the scale of our cosmos. At the end of two weeks, students will present at the UWM Planetarium what they learn about stars and the vastness of space.

$164
Jean Creighton
8410-0491 June 18-29, 2-4pm
Gr. 9-12, Session I

Fuel Up & Go!
Just like gas in a car’s tank, food is fuel for your body. The right mix and amount of nutrients is important for proper functioning of our mind and muscles. Learn how nutrition, combined with exercise, can keep you fit, strong, smart and at your very best!

$99
Instructor: TBA
8410-0432 June 11-15, 2-4pm
Gr. 6-8, Discovery Camp Plus

Go Beyond Geology 101
Did you know that earthquakes, volcanoes and soil erosion affect all the people of the Earth, even if the geological event occurs halfway around the world? Find out facts like that and so much more as we uncover the Earth’s history. We will also explore the different variety of rocks, minerals, fossils, landforms and the layers of the Earth’s surface.

$99
Kelsey Clark
8410-0077 July 16-20, 9-11am
Gr. 6-8, Discovery Camp 2

NEW! How Does the Weather Work?
How is Earth’s atmosphere constructed? Why do we have seasons? Learn all about weather in this class and why it happens. Learn how to describe the daily weather by using maps, radar images and satellite images.

$99
Steve Augustine
8410-0420 June 11-15, 11:30am-1:30pm
Gr. 6-8, Discovery Camp Plus
OFFERED THIS SUMMER IN
MILWAUKEE, GLENDALE AND GREENDALE

Program for 4-Year-Olds and Entering Kindergartners
In this fun summer program, your child will learn to read. Children learn letter recognition, beginning phonics, and easy sight words. Your child will learn to read simple words and short sentences and will be excited about books and reading.

Program for Entering 1st Graders
In this fun summer program, your child will learn to read independently. Children learn phonics and sight words, build fluency and comprehension, and develop a love of books and reading. Your child will be excited about reading and get off to a great start in first grade.

Program for Entering 2nd Graders
In this fun summer program, your child will become a fluent, confident reader. Children build solid phonics and word-attack skills and develop reading fluency and strong comprehension. Your child will gain confidence, be excited about books and reading, and get off to a great start in second grade.

Program for Entering 3rd Graders
In this fun summer program, your child will become a strong, fluent reader. Children develop long-word decoding skills, reading fluency, and excellent comprehension. Your child will gain confidence, develop a lifelong love of books and reading, and get off to a great start in third grade.

Program for Entering 4th Graders
Program for Entering 5th Graders
In these fun and effective programs, your child will become a skilled, enthusiastic reader. Students develop strong comprehension skills in fiction, non-fiction, and textbooks. They build long-word decoding skills and learn to read more fluently and rapidly. In addition, students become more skilled and confident writers. Your child will complete homework and writing assignments more quickly and easily, be more successful in school, and develop a lifelong love of reading.

Program for Entering 6th-8th Graders
Program for Entering 9th-11th Graders
In these effective and enjoyable programs, you will make substantial gains in comprehension and learn to read twice as fast. Students learn the best way to take notes, study for tests, and read fiction, non-fiction, and textbooks. In addition, you will learn effective techniques to improve your writing skills and build confidence as a writer. Homework and writing assignments will be easier to complete, your grades will improve, and you’ll enjoy reading so much more.

Program for Adults, Entering 12th Graders, and College Students
In our speed reading program, you will learn to read twice as fast in materials ranging from novels to non-fiction. The comprehension, concentration, and retention techniques you learn will enable you to get more and retain more from everything you read.

Highly Skilled Teachers Make Learning Fun!
These enrichment programs are offered by the University of Wisconsin-Milwaukee School of Continuing Education, a nonprofit organization. Classes are taught by professional instructors from the Institute of Reading Development.

FOR MORE INFORMATION OR TO REGISTER
Call 1-800-964-8888
Mon.-Fri., 7am–9pm; Sat., 7am–6pm; and Sun., 9am–5pm
SCE | All classes held on UWM campus unless otherwise noted.

Please note: Registration opens Jan 16. • All registrations are processed on a first-come, first-served basis. • Registrations will not be processed without payment. • If children are carpooling, please send registrations in together. • Please register children using fall 2018 grade levels.

MESSAGE CODE: AU-17-17-C

In Partnership with UW-Extension
Skip Ahead!
Advanced check-in: June 1-8, 9am-4pm. Avoid the long lines and get acquainted with campus early — stop by our office located in the Union, room W179. Please call 414-227-3360 (before June 1) or 414-940-1896 (after June 1) for other questions.

Check-In
Check in at the Union Terrace on your child’s first day. Here, we will make sure you’ve filled out all the proper paperwork, and then students will receive their CFK/CFT drawstring backpacks and wristbands. It is helpful to bring your confirmation receipt with you on the first day. Please note: You only need to do this one time during the summer on your first day of your first class. Please arrive 15-30 minutes before your class start time in order to get checked in and start class on time. If a large number of students arrive right before class start time to check in there will be a significant delay in getting students to their class and receiving the full instruction.

Age requirement
Kindergartners must be five years old by June 11, and must have prior five-days-a-week school experience to participate in our program. This rule will be strictly enforced and children who do not meet this requirement will be subject to immediate withdrawal with no refund given.

Pickup & Dropoff
Pickup and dropoff are at the Union Circle, 2200 E. Kenwood Blvd., or inside the Union Terrace (SW corner on the ground floor).

Instructors will bring their students to the Union Terrace at the end of class time. You must pick your child up within 15 minutes (e.g. if class ends at 4pm, pickup must be no later than 4:15pm). Students will be allowed to wait for their ride either inside the Union Terrace or outside at the circle drive. Please make sure your child knows where they are meeting you.

You will be charged $10 for every 15 minutes past the pickup time (e.g. 4:16-4:31pm would be $10; 4:32-4:47pm would be $20, and so on). If your child is not picked up within one hour, CFK/CFT will contact the UWM police. Your child will not be allowed to return to classes until the fee has been paid.

Only students who have a signed parental release form granting them permission to leave unattended will be able to leave without an adult. If your child is to go home on their own, make sure you sign that form. These students will be given orange wristbands to wear throughout the program.

If you need to pick up your child early or drop them off late, you will need to go directly to the classroom. Please do not drop children off at the Union if you are running late. If you do not see a staff member standing outside the Union, students and instructors have already left, and you will need to take your child to his/her classroom. If you do not know the classroom location, please call our office at 414-940-1896 or visit the Union information desk – located on the ground floor.

Wristbands
Wristbands are given out on the first day of a session, and are to be worn every day. If your child is enrolled in more than one session, he/she can receive a new band at the beginning of each session. Please bring the old wristband back in order to get a new one. It is your responsibility to make sure your child wears the wristband every day. The colors indicate to our staff what privileges each child has, such as leaving campus unattended or not being included in pictures. Children are not allowed to participate in class unless they are wearing a wristband to verify that they are enrolled.

The cost to replace the wristbands is $20 for the orange and $3 for all others. (If you need to take it off for any reason, please bring it back and it will be replaced for free.)

Meals
Lunch and snacks are not included. Please provide your child with a bag lunch and/or snack each day. Only students that have permission to leave unattended (orange wristband) will be able to purchase food on campus.

Drawstring Backpacks!
All participants will receive a FREE CFK/CFT drawstring backpack – handed out at check in.

What Not To Bring
Please do not bring games, toys, trading cards, electronic devices and other similar materials to classes, unless the instructor has requested you to do so. CFK/CFT is not responsible for lost, broken or missing items.

Disciplinary Information
Disruptive students are taken to the CFK/CFT office and their parents are notified. Continued disruption results in removal from the program.

Children with Special Concerns
If your child has special needs or requires medication during class, please contact us before enrolling to fill out additional paperwork. This will ensure that we can address all of your concerns.

Mail List Requests
To update your name and address, remove your name from our mailing list, or eliminate duplicate mailings, call 414-227-3186. Please refer to your name and address exactly as it appears on the mailing label. Or, fill out the form on our website at sce-kids.uwm.edu.

Other Important Information
Do not leave your car unattended in the Union circle drive, you will be ticketed by campus police and there is nothing CFK/CFT can do about it! A parking ramp is available just to the east of the driveway. Street parking is also available.

If students are enrolled in back-to-back classes they will be supervised in the Union Terrace Room, unless you have given them permission to be unattended.

Scholarships

Needs-Based:
To be eligible for a limited number of needs-based scholarships, student must be entering grades K-5 and be eligible for the free or reduced lunch program. Needs-based recipients will be notified by phone the 1st week of May.

DPI Pre-College Scholarship Program:
Applicants must be going into 6th grade or above, have a 2.5 grade point average in core courses, and be eligible for the free or reduced lunch program. If you qualify for either of these scholarships, please call for an application, contact your school and instructors have already left, and you will

In Partnership with UW-Extension. No Wisconsin tax dollars were used in the printing of this publication.
