Welcome to the 116th University of Wisconsin-Milwaukee Commencement.

This is the day to recognize our graduating students’ academic effort and remarkable personal commitment. As you look around, you can appreciate our need for the size of the UWM Panther Arena.

As we celebrate our graduates, we can also look to these outstanding individuals with a great sense of hope. For some, the work and impact of a university is viewed as complete when students conclude their studies. This is not the case at UWM. Our students, alumni, faculty and staff are engaged in lifelong research, critical thinking and collaboration with businesses, industries, non-profit organizations, and other educational institutions both in the region and across the globe. These partnerships propel innovation and create jobs for our students after they graduate. You’ve set the bar higher for new levels of cooperation, innovation and entrepreneurship. An academic degree brings newfound opportunities and exceptional value to both the recipient and the wider community.

On behalf of the UWM faculty and staff, I congratulate all of today’s graduating students. When combined with those who will follow them in December, the Class of 2017 is an impressive 5,000+ students.

To all of our guests here to witness today’s event, I thank you for supporting your adult child, relative, spouse, partner, or friend. And to all our graduates, I offer my best wishes in all of your endeavors. Please keep us apprised of your many successes.

Best regards and congratulations,

Mark A. Mone
Chancellor
THE STORY OF THE UWM SEAL

Official ceremonial activities and actions of the University of Wisconsin–Milwaukee nearly always make use of the UWM seal. It can be found on all significant university documents. The key elements of the UWM corporate seal are the university’s logo in the center and the years above the word “Milwaukee.”

The logo was redesigned in 1999 to more distinctly represent the university. Distinguishing elements of the redesigned logo include the different typefaces used for the letters “UW” and “M,” which reflect the diversity inherent at UW-Milwaukee, and the overlapping of the “W” and the “M” to show the connection between the University of Wisconsin System and Milwaukee’s university. The two wavy banners below the letters “UWM” show movement and suggest a continuum of education throughout one’s life. The banners also represent waves and emphasize how Milwaukee and the campus are located near water. The nimbus, appearing behind the logo, symbolizes educational enlightenment.

The three years noted in the corporate seal are 1849, 1885 and 1956.

1849 represents the era that higher education began in this state. Wisconsin became the 30th state in the union on May 29, 1848. Less than two months later, on July 26, the University of Wisconsin was established under provisions in the new state constitution. One of the initial steps to prepare students for university was enrolling young people in preparatory classes. On February 5, 1849, 17 boys arrived for preparatory classes in space borrowed from the Madison Female Academy. This date is referred to in Wisconsin education as Founders Day. Then, in autumn 1850, the first University of Wisconsin freshman class assembled in Madison for first-year instruction as part of a four-year college curriculum.

1885 denotes the beginnings of public higher education in Milwaukee at the Milwaukee State Normal School. The Wisconsin legislature in 1880 approved expanding higher education by establishing nine normal schools around the state. The first students in Milwaukee were admitted in 1885. In the beginning, curriculum was limited to a two-year teacher-training program. As its educational mission evolved, the school’s name changed. It became the Milwaukee State Teachers College in 1927 and the Wisconsin State College, Milwaukee, in 1951.

1956 signals the beginning of the modern era of public higher education in Milwaukee. During the late 1940s and early 1950s, many proposals to expand higher education offerings in Milwaukee were considered. The successful proposal approved in 1955 combined the previously mentioned Wisconsin State College, Milwaukee, and the Milwaukee office of the University Extension Center, an auxiliary of the University of Wisconsin in Madison. The new university was considered a part of the University of Wisconsin and classes at the new University of Wisconsin–Milwaukee began in the fall of 1956.
A Quick History of UWM

The name has changed—several times—but the roots of the University of Wisconsin-Milwaukee go back to 1885 when Wisconsin established the Milwaukee Normal School, a two-year teacher’s college.

Some important dates:

1885  Milwaukee Normal School opens to train teachers in downtown Milwaukee at 18th & Wells
1892  University of Wisconsin offers day and evening classes in Milwaukee
1909  With the completion of a new Milwaukee Normal School building (today’s Mitchell Hall) the campus moves to its present location
1920  The University of Wisconsin Extension Division, formed in 1907, takes over responsibility for UW instruction in Milwaukee
1927  Normal school becomes Milwaukee State Teachers College with 4-year degree
1928  UW Extension opens Milwaukee Center downtown
1931  Milwaukee State Teachers College becomes Wisconsin State College with liberal arts degrees
1951  WSC & UW Milwaukee Extension merge to form UWM
1956  The 8.6-acre Milwaukee-Downer Seminary site, including 3 buildings, is purchased
1961  UW offers first PhD degree, in mathematics
1963  UWM buys Milwaukee-Downer College buildings, expands campus
1965  UWM purchases the 6.3-acre Milwaukee University School campus
1970  Three residence towers, collectively called Sandburg Halls, open for student housing
1988  UW System designates eight Centers of Excellence at UWM
1995  Division of Outreach and Continuing Education Extension (now the School of Continuing Education) moves to new offices in the downtown Plankinton Building
2000  UWM awards diploma to 125,000th graduate; UWM named among top 102 public doctoral research universities in nation
2001  Governor announces honors academy at UWM
2002  Helene Zelazo Center for the Performing Arts opens. Fourth tower added to Sandburg Residence Halls.
2005  Men’s basketball team advances to Sweet 16 in NCAA Tournament.
2006  $100-million Campaign for UWM announced. Pavilion athletics complex and Kenilworth Square mixed-use student housing facility open. Men’s and women’s basketball teams both advance to NCAA Tournament.
2008  Campaign for UWM is completed more than a year early with $125 million pledged to the university.
2010  The School of Freshwater Sciences and Zilber School of Public Health become the first new academic schools established at UWM since the 1960s. UWM acquires the former Columbia Hospital campus: 11 acres; seven buildings with more than 800,000 gross square feet of space; and about 900 parking spaces.
2016  UWM is named a top-tier Research 1 (R1) doctoral university by the Carnegie Classification of Institutions of Higher Education. This honor includes UWM as one of 115 top-tier research universities among the nation’s 4600+ institutions, and only one of two in Wisconsin.

By the turn of the century, the school had expanded to offer programs in the liberal arts and science as well as education. By the ‘30’s, the school, now called Milwaukee State Teachers College, was a national leader in innovative teacher education, with 1,500 students. A student from the 1916-17 academic year, Golda Meir, became prime minister of Israel from 1969-1974.

After World War II, the College was authorized to award four-year bachelor degrees and in 1951 became Wisconsin State College, Milwaukee. Five years later it combined with the Milwaukee Extension Center, which had been the local outreach program of the University of Wisconsin in Milwaukee. Together, the two institutions became the University of Wisconsin-Milwaukee, with its focus on academic research, teaching and community service.

Since its founding, UWM has expanded its programs so that today its 14 schools and colleges offer 94 undergraduate programs, 53 masters and 32 doctoral degrees.
CHANCELLOR’S MEDALLION

The medallion for Chancellor Mark Mone was designed and fabricated by Frankie Flood, Associate Professor of Art and Design, after talking with Chancellor Mone about his vision for UWM’s future. With water from Lake Michigan in its center chamber – and spheres representing how student knowledge grows at UW-Milwaukee – the Chancellor’s Medallion is full of symbolism specific to UWM.

THE MEANING OF ACADEMIC REGALIA

Academic gowns were worn as early as the 12th century. Their primary purpose then was to protect the wearer against the elements. When accepted styles of dress began to change in the 16th century, those in the legal and medical professions as well as scholars in the universities retained the traditional dress of gowns and hoods. The origin of the cap is unclear.

Styles and colors had no particular meaning until 1895 when an “Intercollegiate Code” established design and color criteria. The bachelor’s gown has long, pointed sleeves and is designed to be worn closed. The master’s gown has an oblong sleeve open at the wrist; the rear part of its oblong shape is square cut, the front part has an arc cut away. The gown may be worn open or closed. The doctor’s gown has velvet down the front with three bars of the same velvet across the sleeves. It may be worn open or closed.

The academic hood is the visual representation of the academic degree. The level of the degree is indicated by the length of the hood and the width of its velvet edging, with the doctoral hood being the largest. The color of the lining of the hood denotes the school conferring the degree, the color of the velvet binding denotes the field of study. The color denoting the University of Wisconsin-Milwaukee is gold, dark blue is the color denoting philosophy; therefore, all recipients of the Doctor of Philosophy degree (Ph.D.) at UWM wear hoods lined with gold and trimmed in dark blue velvet.

Other trim colors that you may observe among the masters candidates and the faculty are:

- BLUE VIOLET—Architecture
- WHITE—Art
- BROWN—Art/Dance/Drama
- BEIGE—Business Administration
- LIGHT BLUE—Education
- ORANGE—Engineering/Computer Science
- PEACOCK—Human Resources and Labor Relations
- LEMON—Library & Information Science
- PINK—Music
- APRICOT—Nursing
- SALMON—Public Health
- GOLD—Science
- CITRON—Social Work/Criminal Justice

Honors: The gold cord, worn by some of the bachelor’s degree candidates, identifies those students who have been awarded Commencement Honors for high academic achievement throughout their career at UWM. An asterisk (*) is directly after the names of bachelor’s degree candidates awarded Commencement Honors in this program.

The pewter-colored stole recognizes undergraduate students receiving the Honor’s Degree. This special diploma is awarded in recognition of outstanding academic achievement to students who have completed the requirements of the University Honors College and achieved an overall grade point average of 3.5 or above.

The red, white, and blue cord is being worn by our veterans and military service members.

The black and gold stole worn by some undergraduate students, identifies our McNair Scholars, our future leaders who come from first generation and diverse backgrounds. These students have completed a selective and rigorous research program that prepares them to enter graduate school.

KIMBERLEY CY. MOTLEY has earned the reputation of one of the world’s most respected and successful international lawyers. Armed with an unwavering determination and a passion for justice, Motley is the first and only foreign lawyer to ever litigate in Afghanistan’s Courts. Motley came in 2008 to Afghanistan with JSSP for the purposes of training and mentoring Afghan Defense Attorneys. In 2009, she left JSSP and became the first foreigner to litigate in Afghanistan’s Courts and independently began representing a vast array of clients in Afghanistan. In addition to this, she began conducting published research on juvenile justice in Afghanistan. Motley is a private attorney who considers herself as a global investor in human rights and as a result her pro bono work comprises about 30% of her cases.

Her success has included but is not limited to, securing the first Presidential Pardon for a woman charged with adultery which subsequently decriminalized running away as a crime in Afghanistan, successfully working on international child abduction cases which resulted in the return of British and Australian children ages ranging from 2 years to 8 years old, successfully working in Bolivia on stopping the legalization of child rapes under the age of 6 through the representation of a forensic doctor.

Bringing her vast knowledge, experience, success record and steadfast ethical standards to each case, Motley challenges outdated illegal cultural norms and focuses on laws that are under utilized.

Her expert legal work has earned international attention with segments on CNN, the BBC, NBC, Dan Rather Reports, as well as articles in The New York Times, Vanity Fair, The Guardian, The Washington Post, and The Huffington Post, among many others. Motley has also published several articles on juvenile justice and contemporary legal issues in Afghanistan. In 2014, Richard Branson named her as one of the fourteen most inspirational people. She is currently penning a book chronicling her experiences as an International Attorney in Afghanistan and beyond as well as her fight for justness.

Motley’s litigation practice has taken her around the world and she currently represents clients on every continent, except Antarctica. In 2016, Motley officially launched the Justness Project and with the aim of improving legal representation globally as well as educating people to understand the law in a substantive way.

She recently gave a TED TALK https://www.ted.com/talks/kimberley_motley_how_i_defend_the_rule_of_law?language=en outlining some of her work. An award winning international documentary highlighting her work entitled “Motley’s Law” was released in October 2015 and is being shown in various film festivals globally. In addition to this, Motley is working on a book about her experiences with plans for release in 2018.

AVI SHAKED is founder and CEO of Onward Technologies, a corporate IT services and custom software development provider since 1987. Avi sold his company to a public company in 1998 and successfully negotiated its return in 2000, rebranding it as Onward Technologies.

Mr. Shaked was born in 1950 in Israel and grew up on a farm. After completing his service in the Israeli Air Force, he moved to the United States where he received a vital scholarship at UWM in 1977 for which he is eternally grateful. Avi graduated in 1980 with a BS in Electrical Engineering and then worked as a design engineer at IBM where he worked on the design for the System 36 a new minicomputer.

The impact of the scholarship and education Mr. Shaked received from UWM prompted Mr. Shaked and his wife, Dr. Babs Waldman, to establish a foundation to provide scholarships for engineering students at UWM in 2006. Over 250 students have received scholarships so far.
