UW-Milwaukee gets top bicycle-friendly ranking

UWM's ranking stems from the university's efforts to encourage bicycling by making it an easy option for transportation.

By University of Wisconsin-Milwaukee - Nov 30th, 2016 12:01 pm

MILWAUKEE_The League of American Bicyclists has named UW-Milwaukee a Gold Bicycle Friendly University. The top ranking comes just three years after the campus was named a bronze-level campus by the league.

With the announcement, UWM joins a cutting-edge group of colleges and universities across the United States that are transforming their...
campuses and the communities around them. There are now 164 Bicycle Friendly Universities in 44 states and Washington, D.C.

Kate Nelson, chief sustainability officer at UWM, called the ranking a validation of the efforts of many members of the campus to make UWM more bike-friendly.

“I was surprised that we made the jump from bronze to gold,” Nelson said. “But we won’t rest on our laurels. Right now we’re looking providing more convenient and secure parking at various ‘hubs’ on campus.”

Nelson said longer-range goals include working with students to find better access to Milwaukee’s bike trails and safer routes to Milwaukee’s Riverwest neighborhood.

UWM Chancellor Mark Mone, an avid cyclist, pointed to UWM’s bicycling initiatives as one more example of how the university improves the quality of life of the city it calls home.

“The bike culture at UWM and throughout Milwaukee is growing in so many positive ways,” he said. “Our students, employees and neighbors have all had a tremendous impact on our status as a bicycle friendly university.”

Bill Nesper, the programs director for the bicycle league, praised the newly named universities for being innovative in making bicycling a safe, convenient and enjoyable option for students, staff and visitors.

UWM’s ranking stems from the university’s efforts to encourage bicycling by making it an easy option for transportation. The campus provides amenities such as Bublr bike-share stations, commuter showers and campus bike fix-it stations. Incentives such as community bike challenges have also encouraged the campus community to bike more.

With the new ranking, the league will give UWM access to a variety of free tools and technical assistance to become even more bicycle-
friend.

“When colleges and universities invest in bicycling, great things happen,” Nelson said. “Students have a healthier way to commute, faculty and staff save money on parking, and the community has a leader at the table for city-wide bicycle advocacy.

Other universities in Wisconsin rated as bicycle-friendly are UW-Madison, with a gold rating, and several at bronze: Carroll and UW System campuses La Crosse, Eau Claire and Stout.

**About UWM**

Recognized as one of the nation’s 115 top research universities, UW-Milwaukee provides a world-class education to 26,000 students from 89 countries on a budget of $667 million. Its 14 schools and colleges include Wisconsin's only schools of architecture, freshwater sciences and public health, and it is a leading educator of nurses and teachers. UW-Milwaukee partners with leading companies to conduct joint research, offer student internships and serve as an economic engine for southeastern Wisconsin. The Princeton Review named UW-Milwaukee a 2017 “Best Midwestern” university based on overall academic excellence and student reviews, as well as a top “Green College.”
