Degree Credit

Bylaw 14.4.3.1.7

- During SA's first two academic years, credit-hour requirements may be satisfied with credit hours that apply toward ANY degree at the institution.
- At the start of third year of enrollment, all credits used to satisfy PTD credit-hour requirements must count toward designated degree, they must be degree applicable.
 - Hours towards a minor can count but only if the minor was declared prior to the start of the academic term. Can only fulfill the 6-hour and 18-hour requirement, not the percentage.

• Degree Credit

Multiple Majors

- A student-athlete who has declared 2 majors within 1 degree program, can, but is not required to, combine the hours for both majors to calculate their degree percentage
 - Example: Bachelor of Business Administration degree with majors in marketing and finance. Can either calculate percentage based on 1 of the major requirements or can add both together.
- A student-athlete that has declared majors in 2 separate degrees cannot combine the hours and must use only hours for 1 major to meet PTD requirements.
 - Example: Bachelors of Science in management and Bachelor of Arts in international relations. Can use either management degree or international relations degree to certify but not both.
