## Request a Textbook in an Alternative Format

## **BEFORE YOU MAKE A REQUEST**

**Begin with Bookshare.** Bookshare is an ebook library with a large collection of customizable ebooks. As a UWM student approved for an alternate format accommodation, you are already a member with Bookshare.

If you search in Bookshare and do not find your textbook, request an alternative format by following the directions below. **NOTE: You will be asked to upload a receipt of purchase or rental; however, please request an alternative format as soon as possible, even without a receipt. It takes time to get textbooks from publishers, and you can upload the receipt later.** 

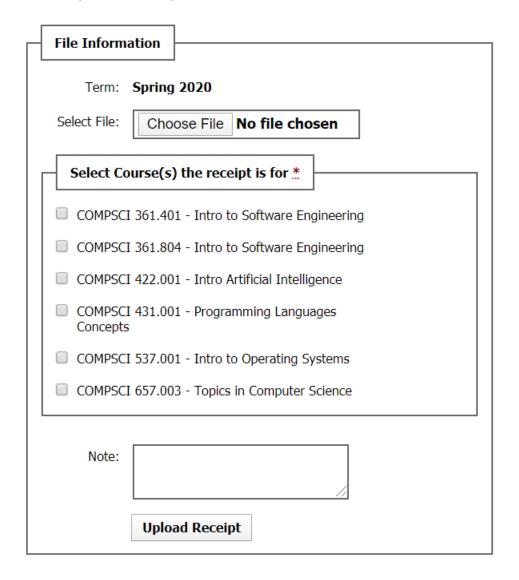

- Log into ARConnect with your ePanther ID and password in order to select or enter textbook information.
- Click on "Alternative Formats." ARConnect syncs with UWM bookstores.
  If your instructor requested textbooks from the campus bookstore, your textbooks should be listed in this view.

Proof of purchase, rental, or verification that the text is available in library reserve is required before ARC can release the alternate format to you.

## **To Upload Book Receipt**

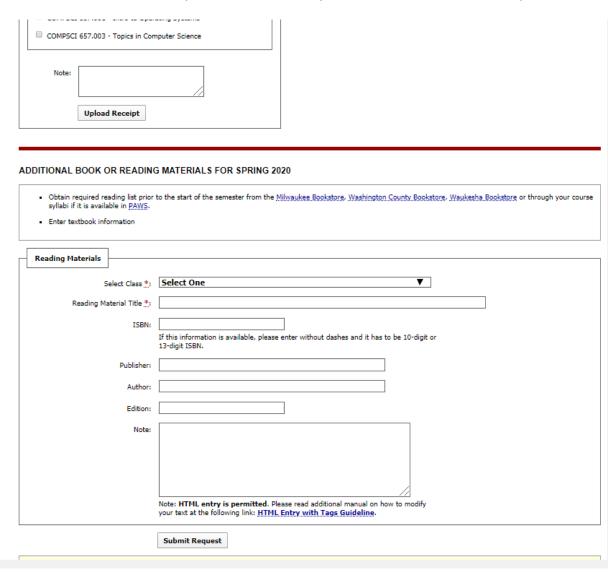

- Choose the file to upload
- Select the course tied to the receipt
- Click Upload Receipt

## What if I can't find my book listed in the top view?

To request a textbook that is not listed with the bookstore or for any additional reading materials you may need for class, navigate to the "Additional Book or Reading Materials" section, and enter the details below:

- Select the class for which this text is required
- Enter the textbook or reading material title
- Enter the 13-digit ISBN
- o Enter the publisher information
- o Enter the author(s) information
- Enter the edition, if applicable
- Click on "Submit Request" to submit your alternate format request.

Once you submit your request, return to Upload Receipt by scrolling up and submit your receipt for books or reading materials attached to this request as well. If you have further questions, please contact your ARC Access Specialist.
