

Learn about cell structure and function at the molecular level

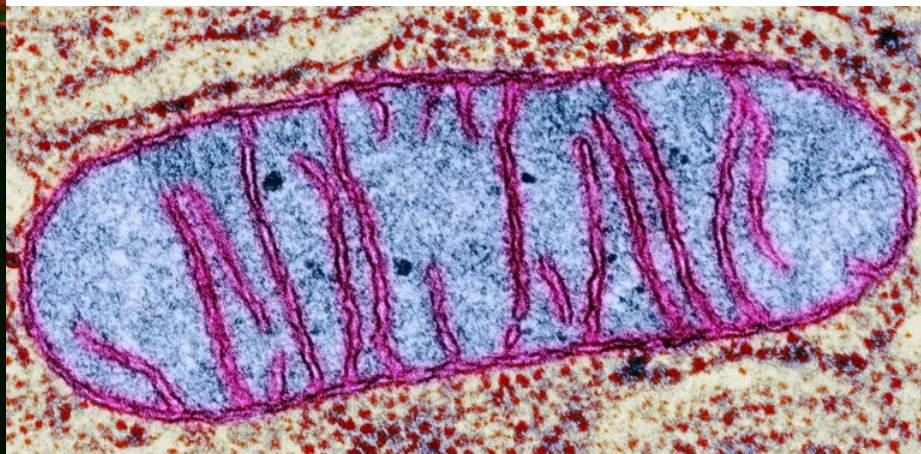

Bio Sci 315: Cell Biology

- TR 11:00-12:15, Lapham 160
- Prerequisites: Bio Sci 152 and Chem 104
- Required gateway course: CMB option, Neuro major
- Upper-level elective credit: Micro Major, Gen Bio & EEB options
- Professor: Dr. Udvadia

Explore the flow of material, energy, and information within prokaryotic and eukaryotic cells

Required text: *Essential Cell Biology* by Alberts, et al.

Fifth Edition, ISBN: 9780393679533
