

BioSci 670 – Senior Seminar

Section 201, Class # 13910

INSTRUCTOR: Gerlinde Höbel

Dogs

Evolution, Behavior & Cognition

This course provides an overview of the evolution, behavioral ecology and cognitive ability of the domestic dog. Students will read papers drawn from the primary literature, prepare for and participate in virtual discussions, and create popular press material based on those papers.

Course format is **online** and **asynchronous**

This course fulfills the *research requirement* for the BioSci Major
