

This product does not require Safety Data Sheet or Material Safety Data Sheet. Under normal conditions of use, this product will not expose user to a chemical hazard. However, product may contain biological materials, and standard precautions should be used.

Safety Data Sheets for VITROS[®] DT60/DT60II Products

Dear Valued Customer:

Ortho Clinical Diagnostics (OCD) provides Safety Data Sheets (SDS) for any OCD products that contain hazardous materials at or above regulated thresholds.

Under normal conditions of use, the products that contain hazardous substances would not expose the user to a chemical hazard. However, since some products may contain biological materials, standard precautions should be used when handling all products.

The list of Ortho Clinical Diagnostics' products or products distributed by OCD indicates the products that have an SDS and the products that are exempt and do not have an SDS.

- Those products with Yes in the first column of the list have an SDS. The SDS can be found at www.orthoclinical.com or on the listed manufacturer's website. Click the MSDS Library link in the lower right-hand corner of the page, select your country, and then follow the prompts in the screen to obtain the documents that you need. Print the SDS for your records.
- Those products with No in the first column of the list do not require an SDS. Print this exemption letter and file it to prove that an SDS is not required.

For more information on these products, please refer to the package insert or instructions for use (IFU). We recommend that you file this letter and the list of products with your SDS records for documentation purposes.

Thank you for your continued support of Ortho Clinical Diagnostics products.
