

TransLoc App User Guide – Apple iOS

1. Find the TransLoc app in the App Store, open <https://apps.apple.com/us/app/transloc/id1280444930>, or scan:

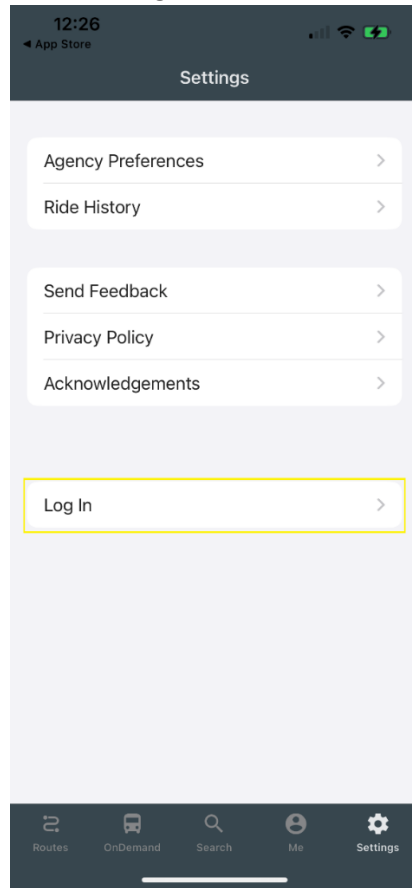

- a.
 - b. International Students may need to set up a US Apple account to download the app. See this page for instructions: <https://panthers.sharepoint.com/:w:/s/TS/EdkBpHTLa9hEs3jCMa5nKZUBcxrKuc2Y3j pzSeRAFDidmA?e=izUdXg>
2. Once you download it, you will be asked whether you to allow “TransLoc” to use your location. It is recommended you select “Allow While Using App” or “Allow Once”. Do not select “Don’t Allow”. The TransLoc app needs some location sharing to identify you as being within BOSS boundaries to arrange rides.

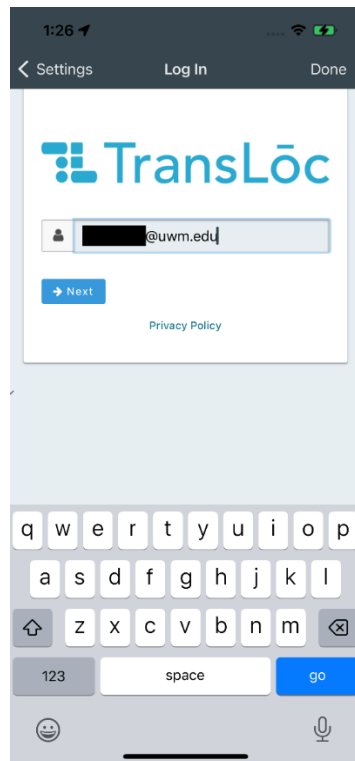

a.

3. Now, click the Settings tab at the bottom, and then click Log in.

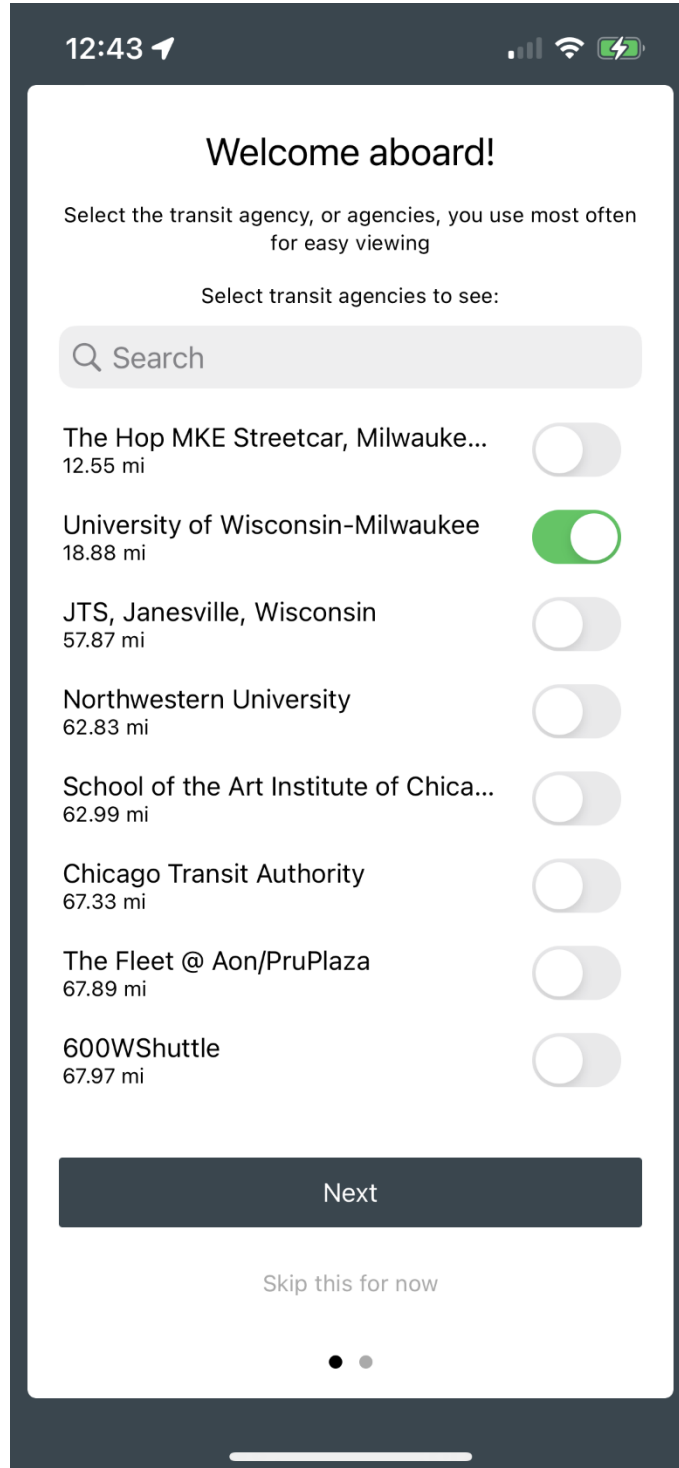

a.
4. Enter your UWM.EDU email address.

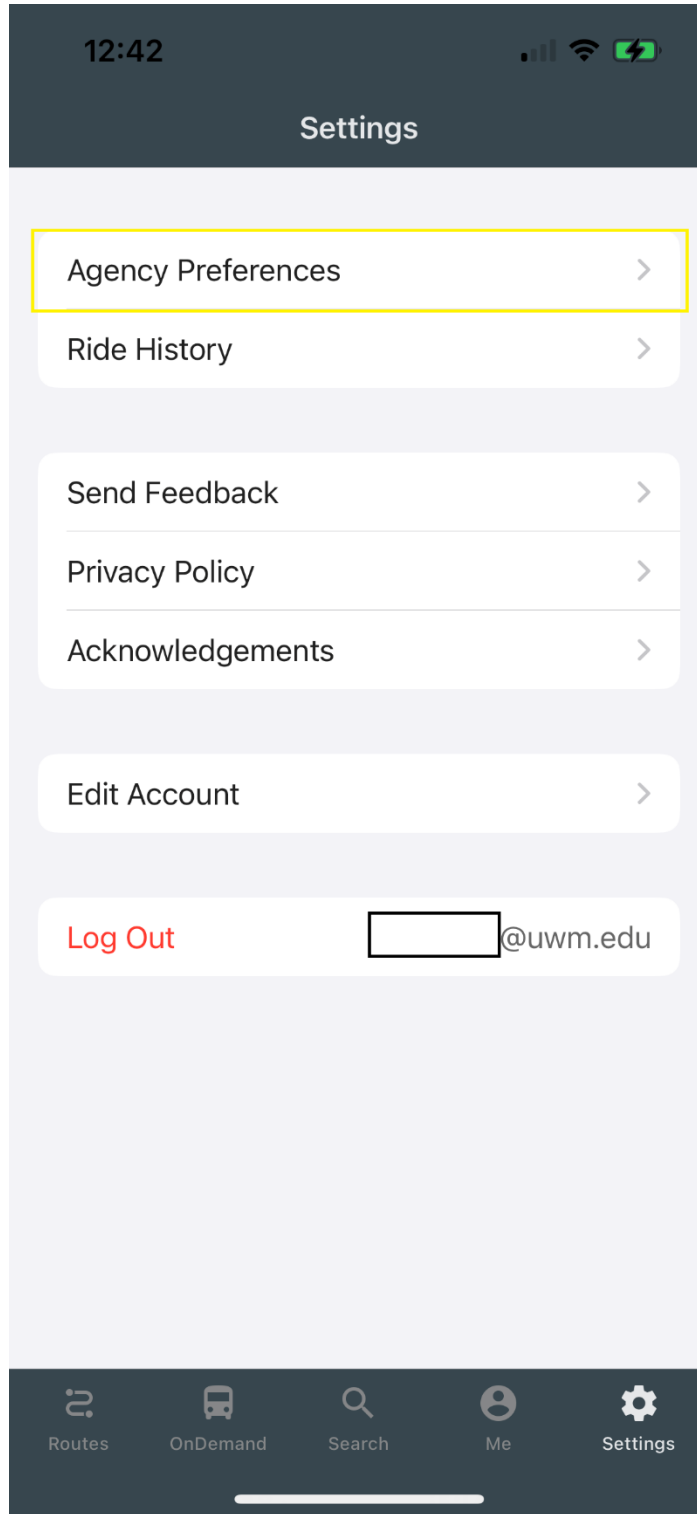

a.

5. You will be directed to the UWM Single Sign-on that is used to log into Outlook email, OneDrive, Canvas, and other campus services. You will also be asked to confirm with multifactor authentication.
6. After logging into your UWM account, you will see the welcome screen. You should toggle “University of Wisconsin-Milwaukee” to show BOSS.

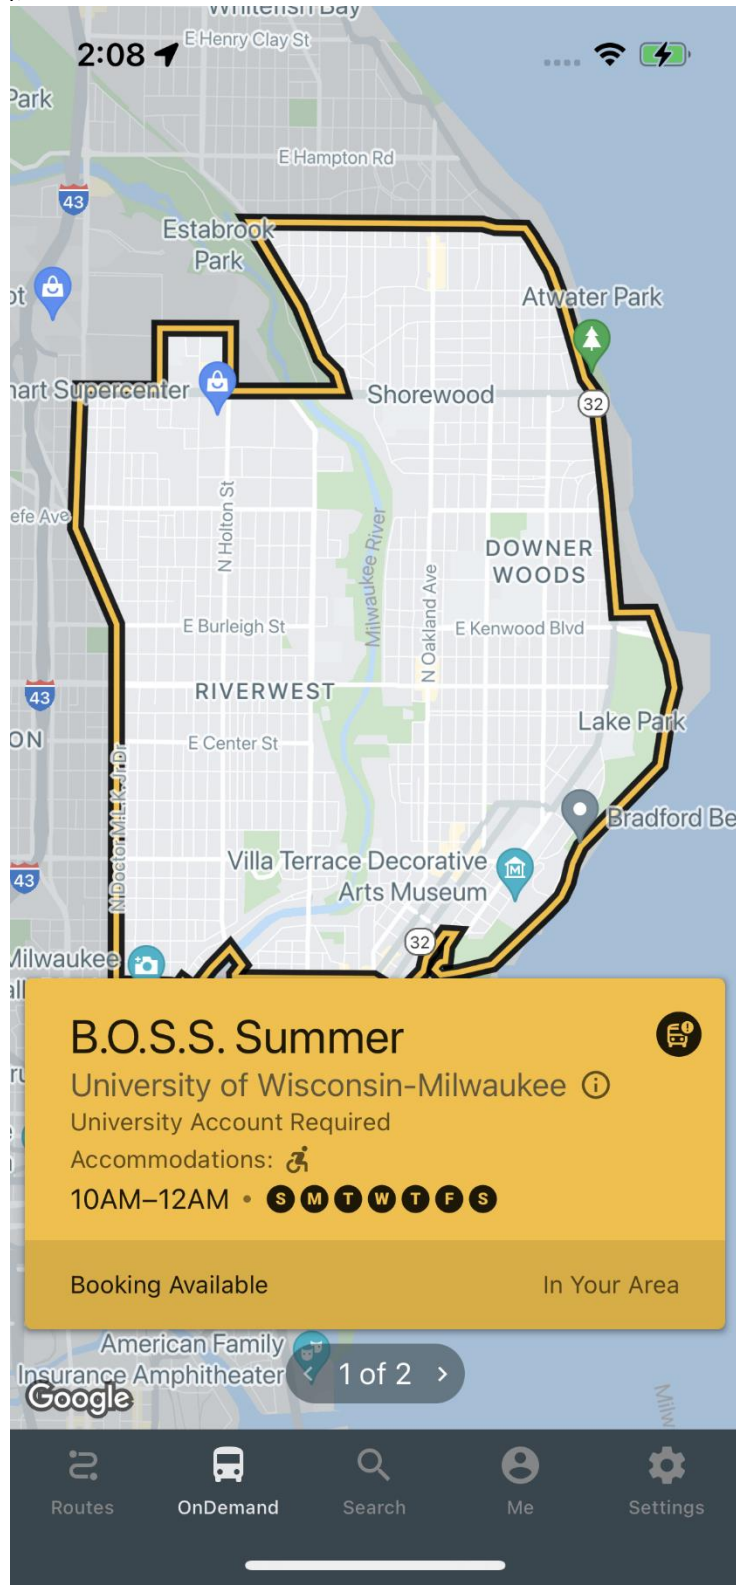

a.

- b. If this screen doesn't appear, you may need to click "Agency Preferences" on the Settings tab:

- i.
7. You are now able to request rides when BOSS is in session! Toggle over to the OnDemand tab. You may see multiple services offered by BOSS. They have slightly different hours as they have

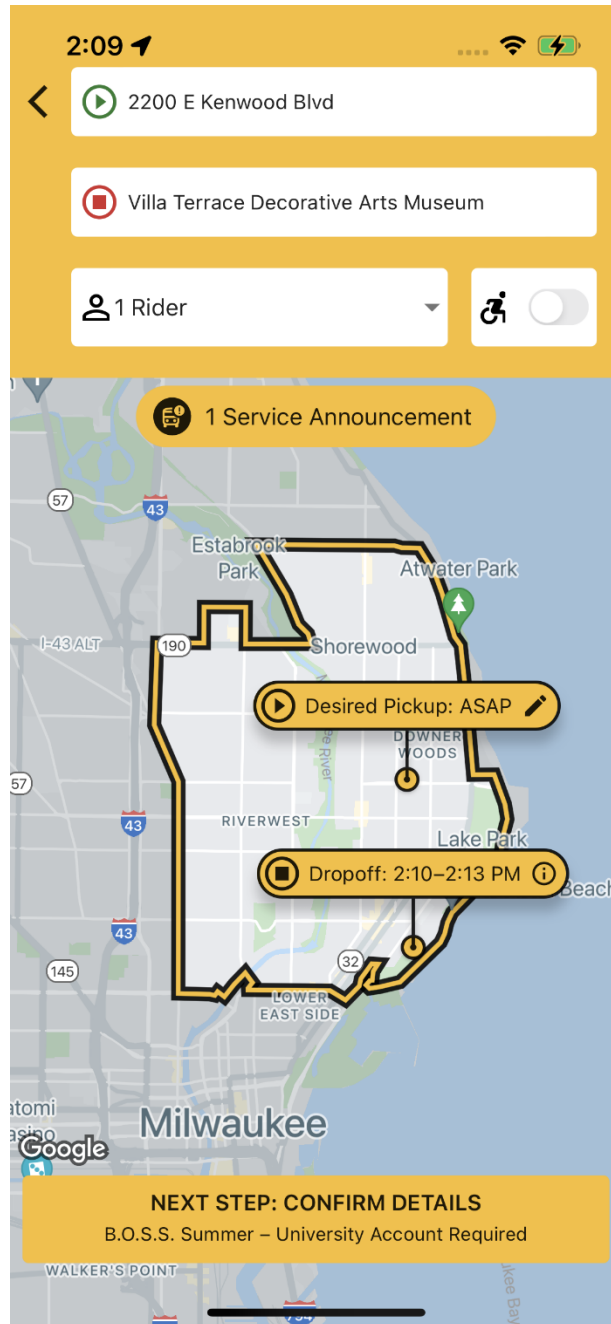

different service areas. Be sure you select an active service (you may have to toggle through services), then click on it.

a.

1Test photo showing sample BOSS service.

8. Select the pick-up and drop-off locations. Select each box, you can then (1) enter an address or (2) select on the map. Choose the number of riders and whether you need an ADA service. Click the Next Step button to confirm.
 - a. Be sure to read any applicable service announcements as well! They contain important service information that may change from time to time.
 - b. It provides an estimated time of arrival but this is dependent on rider demand, weather, traffic, etc.

- c.
9. Click the “confirm details and request ride” button.
