

MASTER OF SCIENCE IN MANAGEMENT ACCOUNTING

This area of concentration provides training in accounting to students who have obtained baccalaureate training in fields other than accounting. The field of accounting requires individuals to have a broad perspective of technical, managerial and social policy issues, as well as critical thinking and problem solving skills. This program builds on non-accounting undergraduate backgrounds and provides skills in accounting and the application of theory at a graduate level to prepare students for mid-senior level positions. Managerial accounting, taxes, accounting information systems, auditing, and business law are examined in-depth in the curriculum. Completion of the degree requirements in this area fulfills eligibility to write the Certified Public Accounting (CPA) examination.

Foundation Courses

Students admitted to the MS in Management - Accounting program without sufficient background must complete the following additional courses:

BUS ADM 201	Introduction to Financial Accounting. 3-4 cr. (B or better grade required)
BUS ADM 350	Principles of Finance. 3 cr.
BUS ADM 301	Intermediate Accounting. 3-4 cr. (B or better grade required)
