UWM Accounting and Taxation Students:

The Lubar School of Business provides several scholarships for undergraduate and graduate students in accounting and taxation. The scholarships recognize outstanding students and provide support as students complete their professional education. The scholarships are made possible by the generous support of the greater Milwaukee business and accounting community and sustain UWM's nationally recognized accounting and taxation programs. Approximately twenty scholarships, ranging from \$1,000 to \$8,000, are available.

Financial need is not a criteria for most scholarships. If you wish to be considered for a needs-based scholarship, the Free Application for Federal Student Aid (FAFSA) must be completed by the scholarship application deadline.

Criteria are listed below.

1. Undergraduate and/or graduate students majoring in accounting who have completed at least two accounting courses beyond intermediate accounting and have completed at least 30 credits at UWM.
2. Students who plan to enroll in a UWM graduate accounting program and have completed, or are in the final semester, of their undergraduate accounting program.
3. Students must be enrolled full time during the award period (at least 12 credits as an undergraduate student or 8 credits as a graduate student).
4. You cannot receive scholarship funds while enrolled for an internship for credit and most scholarships do not allow funds to be received during a semester that you are a Teaching Assistant.

The selection committee considers performance in accounting courses, overall academic performance, and involvement in pertinent outside activities.

The deadline for submission is April 30, 2018. If you have questions about the scholarships, please contact me at lkren@uwm.edu.
