

The Drummer and the Keeper

Ireland | 2017 | 92 min

Ordered to recover at a home for the neurodiverse following his most recent breakdown, bipolar drummer in an up-and-coming Dublin rock band Gabriel is made to spend time with Christopher, a teenager with Asperger's syndrome and a passion for soccer. Antipathy soon gives way to genuine friendship, as these two lonely souls discover in one another what they've been missing. The very definition of heartwarming, *The Drummer and the Keeper* is a feel-good story of (bi)polar opposites connecting against all odds.
