In Attendance: Mark Harris, Akke Talsma, Amy Harley, Andrew Greattinger, James People, Jennifer Gutzman, Kim Lacking Quinn, Nigel Rothfels, Prasenjit Guptasarma, Robin Mello, and Kathleen Koch

1. Call to Order (12:04) and Welcome - Mark
2. Introductions
3. Structure of 2030 Implementation Team
   a.   Lead group of co-leads of four sub-teams
              Co-leads: Kathy Dolan and Mark Harris
   b.   Revise Undergraduate Experience group
              Co-leads: John Reisel and Kathy Dolan
   c.   Radically Welcoming Institution group
              Co-leads: Becky Freer and Margaret Noodin
   d.   School, College and Program Realign group
              Co-leads: Gillian Rodger, Kris O'Connor and Dietmar Wolfram
   e.   Research group
              Co-leads: James Peoples and Mark Harris
4. Logistical matters
   a.   Teams site
   b.   Shared documents: General versus Research Sub-Team
   c.   Meeting time: Friday 12-1
              Set for 10/2, 10/16
              Due to Furlough & Thanksgiving, set meeting dates of 10/23, 11/6, 11/20,
              12/4, 12/18

5. James People overview group's charge from Chancellor
   A. Goal: The 2030 Implementation Team is charged to continue the momentum of and expand upon the recommendations of the 2030+ Think Tank by creating proposed action plans that includes details on:
   o   Quickly executing ideas when possible.
   o   Conducting analyses for areas that require more study and consultation, and
   o   Creating implementation plans for all recommendations.
   B. Scope: Conduct top tier research.
       a. Expand collaborative and interdisciplinary scholarship and graduate programs.
       b. Infuse entrepreneurship, design thinking, and data science into faculty research and graduate and undergraduate education.

      c.   Strengthen sustaining partnerships with community, industry and other academic institutions.

      d.   Optimize faculty workforce deployment.

6. Discussion

- UWM's role as an urban research institution
- Research helps attract and retain students, but faculty workload is an obstacle; "credit" for mentoring would help
- Consider if we need to be "radically welcoming" to graduate students as well
  - In some ways, two populations here: PhD/research MS and professional degrees
- Need to link actions with intended outcomes
- Mega-idea: merge with MCW or MSOE to expand scope and impact

7. Adjourn at 1:02
