At the UWM Children’s Learning Center, children enjoy a nice blend of structured and unstructured time. The teachers plan a variety of engaging and fun learning experiences (because after all, children do not stop learning when school is out). They can relax while learning arts and crafts, challenge themselves with hands-on science and math activities and exercise their bodies in our indoor gym and on the playground. Children also have plenty of time to play, which helps them create lasting relationships with new and old friends.

We have revamped some aspects of the school-age program to focus on child-centered and developmentally-appropriate programming. Children will be placed in classrooms by the grade they are completing in school this spring. Classroom and teacher assignments for the summer may be different than those during the academic year. Below is a general outline of programming available for each age group. A more detailed outline of programming will be available on our website no later than February 28.

Please note that summer ends on August 14. The Center will be closed August 17-21.

Our fall semester begins on August 24, and care that week will only be available to children enrolled in the Center’s fall after-school program.

In the past we have allowed summer-only families to enroll for care during ‘Early Fall,’ but we are no longer able to provide this service due to significant staffing constraints & policies.

FIELD TRIPS: K3 children will take 2-3 field trips during the summer along with children their age in our preschool programs. Favorite places to visit are a strawberry field to pick fresh berries and a farm where children can see and touch animals. Parents will be given advance notice of dates and trip details.

WATER FUN: K3 children will not swim weekly at the Klotsche pool, but will get wet and have fun doing other water activities on our play yards. They will use sprinklers, spray bottles and wet sponges and play games with water.

CONNECT WITH NATURE: We’re going to have a special focus on nature activities. Nature programming will be provided by Center staff and by nature educators/naturalists from the Urban Ecology Center and Retzer Nature Center. Activities will take place at the Center and in Downer Woods.

THEATER/CHILDREN’S VARIETY SHOW: This year children will have an opportunity to participate in a variety show featuring short skits, music and dance. Families will be invited to an evening performance on Tuesday, August 11.

MARTIAL ARTS: Little Samurai Karate classes are offered in a group format in the Center’s Panther Gym on Tuesday mornings. This is an optional activity with an additional fee of $45.
