This document serves as a resource for UWM administrators, faculty and staff who seek to establish structured academic collaborations with universities outside the U.S.

Types of collaboration may include:
- Study abroad for UWM students
- Internships abroad for UWM students
- Student exchanges
- Faculty exchanges
- General Admissions agreements
- Credit Transfer agreements
- Off-campus program or course location
- Distance education
- Collaborative course or program resource sharing
- Sequential degrees
- Dual degrees
- Joint degrees
- Non-Degree Study Programs (UWM as study abroad site for other universities’ students)

Establishment of any of these formal collaboration agreements may or may not be preceded by the partnering institutions’ completion of one of the following:
- Memorandum of Intent (MOI)
- Memorandum of Understanding (MOU)

The MOI and the MOU are agreements to explore opportunities for collaboration. While they typically reference academic collaborations such as student exchanges, they are not intended to serve as the basis for enacting a formal collaboration involving a commitment of institutional resources. Any formal academic collaboration must be established through a more detailed, follow-up agreement.

Core principles to observe when establishing academic partnerships include:
- The academic responsibilities for UWM offerings are to be retained by UWM faculty.
- For awarding of UWM academic credit, UWM policies and processes prevail.
- UWM’s institutional admissions policies and processes govern all arrangements in which students enroll at UWM as degree-seeking students.
- Students who are admitted to UWM under any partnership agreement attain the same rights and responsibilities as all duly admitted UWM students.

UWM policy SAAP 4-1 establishes guidelines for negotiating and entering into international inter-institutional agreements. In accordance with SAAP 4-1, the Center for International Education (CIE) manages the campus approval process. Individuals engaged in developing new agreements are strongly encouraged to contact CIE (Tracy Buss, tbusu@uwm.edu) early in the process.

---

1 Based on UW-Madison document: Modes of International Academic Program and Course Collaborations
## Types of International Partnership Agreements

<table>

</table>
| Memorandum of Intent        | Low-level commitment to explore opportunities for collaboration.                   | - Signature authority resides with UWM administrators at Dean’s level or above.  
- Uses standardized language that has been pre-approved; deviations from the approved language are not allowed.  
- The *only* type of agreement that does not require approval through the process outlined in S-33.5.  
- Quickest agreement to enact.  

Contact: Tracy Buss, CIE, tbuss@uwm.edu |
| Memorandum of Understanding  | Low-level commitment to explore opportunities for collaboration.                   | - Signature authority resides with UWM Chancellor or Provost.  
- May be based on UWM or partner’s template. Requires review through process outlined in S-33.5.  
- May serve as central inter-institutional agreement augmented by separate addenda or sub-agreements specifying terms of individual collaborations.  

Contact: Tracy Buss, CIE, tbuss@uwm.edu |
| Study Abroad Affiliation Agreement | Denotes UWM faculty pre-approval of an overseas study program for UWM study abroad credit. | - Signature authority resides with UWM Chancellor or Provost.  
- Requires a department’s or academic program’s endorsement of the program and agreement to award credit for studies undertaken.  
- Cost, course offerings, language of instruction, and availability of internship placements are significant considerations when gauging UWM student demand.  
- Faculty/departmental sponsorship helps ensure quality of educational experience and course equivalencies.  
- Provides assurance to students that they will receive UWM credit for their overseas studies.  
- May provide formal program cost discount or access to program’s scholarships for UWM students.  
- Arrangements must be established under the auspices of the Center for International Education to ensure oversight of all administrative and risk management issues.  

Contact: Sharon Gosz, CIE, schetney@uwm.edu |
| Overseas Internship Agreement | Denotes UWM faculty pre-approval of overseas internship program for UWM academic credit. | - Signature authority resides with UWM Chancellor or Provost.  
- Requires a department’s or academic program’s endorsement of the program and agreement to award credit for studies undertaken.  
- Requires a plan for academic oversight over the internship, either through the partner academic institution or through UWM faculty.  
- Faculty/departmental sponsorship helps ensure quality of educational experience.  
- Provides assurance to students that they will receive UWM credit for their overseas internship.  
- May provide formal program cost discount or access to program’s scholarships for UWM students.  
- Arrangements must be established under the auspices of the Center for International Education to ensure oversight of all administrative and risk management issues.

</table>
| Student Exchange Agreement  | Reciprocal arrangement in which UWM students study at a partner institution and the partner’s students study at UWM for up to one year. | - Signature authority resides with UWM Chancellor or Provost.  
- May be at the departmental, school/college, or campus-level.  
- May involve undergraduate and/or graduate students.  
- Outgoing UWM students pay UWM tuition to offset costs of incoming partner institution’s students. Cost comparison should assess UWM students’ costs enrolling as a tuition-paying study abroad student at the institution, as foreign tuition rates are often lower than UWM’s and study abroad affiliation may be preferable to exchange.  
- Exchanges must balance or may be frozen or cancelled.  
- UWM student demand considerations include language of instruction and size of UWM student pool possessing necessary language skills, alignment of UWM and partner’s academic programs, total cost, location, student services.  
- Helpful to establish agreement on UWM/partner course equivalencies.  
- Faculty/departmental engagement helps ensure quality of educational experience, strong relationship with partner institution.  
- Provides assurance to students that they will receive UWM credit for their overseas studies.  
- Arrangements must be established under the auspices of the Center for International Education to ensure oversight of all administrative and risk management issues. |
| Faculty Exchange Agreement  | Reciprocal arrangement in which UWM faculty may teach or conduct research at a partner institution and the partner’s faculty may teach or conduct research at UWM. | - Signature authority resides with UWM Chancellor or Provost.  
- Typically at the program or department level.  
- Practical considerations include primary objective and duration of visits, compensation, housing, dependents’ issues, health insurance, and financial commitments of the partners.  
- Potential for such collaboration exists through UWM’s Exchange Visitor (J-Visa) Program, managed by the Center for International Education.  
- UWM does not currently have a formal faculty exchange agreement in place to serve as guide. |
| General Admissions Agreement | Explains UWM admissions processes and establishes agreement that UWM and the partner will work together to encourage the partner’s students to apply to UWM. | - Signature authority resides with UWM Chancellor or Provost.  
- Typically but not necessarily campus level; may be specific to a school/college or program.  
- Partner may be a high school or undergraduate institution seeking to strengthen enrollment pathways for their graduates.  
- Agreements specify existing UWM admissions processes and policies.  
- Students must apply through regular UWM admissions process.  
- Students of partners in undergraduate Admissions and Dual Degree agreements qualify to apply for UWM’s Global Partners Scholarships. |
| Credit Transfer Agreement   | Recognizes the equivalency of specific courses at one institution to the corresponding courses at UWM. | - Signature authority resides with UWM Chancellor or Provost.  
- Deans may serve as secondary signatories.  
- Appropriate for arrangements under which degree-seeking students from the partner institution enroll at UWM.  
- UWM restrictions on numbers of transfer credits that may be used toward degrees apply. E.g., for graduate students, transfer credits may constitute no more than 40% of credit earned toward a UWM degree. |

</table>
| (Credit Transfer Agreement cont.) | **Undergraduates must complete last 30 credits of coursework at UWM to meet residency requirement.**  
 Incoming students are still required to undergo transfer credit review in accordance with UWM policies.  
 The credit transfer review process is readily available to all degree-seeking UWM students and therefore does not require a formal agreement.  
 An agreement may nevertheless be beneficial in that it can facilitate the enrollment at UWM of partner institution students.  
 Credit Transfer Agreements are also helpful components of Dual Degree and Joint Degree Agreements.                                                                 | Contact: Tracy Buss, CIE, tbuss@uwm.edu                                                                                      |
| Off-Campus Program or Course Location | UWM courses are taught by UWM faculty and staff who are physically present at the remote site. | **Signature authority resides with UWM Chancellor or Provost.**  
 Scale of such initiatives varies from single courses taught by UWM as visiting faculty to offering of partial degree programs at off-campus sites.  
 Delivery of more than four UWM courses a year or more than half of program requirements at the off-campus location requires special approvals by external agencies under US Department of Education regulations.  
 Appropriate when UWM faculty seek to deliver a program at a site away from the UWM campus to the population at that remote site.  
 Differs from study abroad in that the intended audience for these programs is the population at the remote site.  
 Program must use UWM curriculum. Instructors must have UWM instructional appointment and employ UWM infrastructure, policies, processes. Students are subject to UWM student policies.  
 Realistic planning for all costs is essential.  
 May require consultation with accrediting boards.                                                                 | Contact: Tracy Buss, CIE, tbuss@uwm.edu                                                                                      |
| Distance Education Collaboration | UWM courses are delivered by UWM faculty and staff to partner’s students via distance technology. | **Signature authority resides with UWM Chancellor or Provost.**  
 New courses require regular course approvals.  
 Program delivery of full academic programs requires authorization in accordance with new program review/approval policies.  
 Managed through regular UWM distance education arrangements.  
Contact: Laura Pedrick, Provost’s Office, lpedrick@uwm.edu;  
Contact: Tracy Buss, CIE, tbuss@uwm.edu                                                                 |                                                                                                                                                                                                 |
| Collaborative Course or Program Resource Sharing | UWM and partner leverage institutional strengths in sharing curricular and educational resources. | **Signature authority depends on the nature of the agreement.**  
 Types of collaborations vary widely and may require an agreement tailored to the specific collaboration.  
 Requirements for approval vary depending on agreement details.  
 Examples (among others) may include:  
  o Faculty supervision of a graduate student;  
  o Course sharing or joint instructional arrangements;  
  o Sharing of advising of doctoral students;  
  o Library/resource access agreement between institutions.

</table>
| (Sequential Degree cont.) | partner institution then apply to, enroll in, and complete a second, related program at UWM. Courses from the first program may be used to waive requirements in the UWM program. | ▪ Program admission requirements may be set to require that the student has completed the first degree in the sequence at the partner institution.  
▪ Differs from Dual Degree arrangement in that no reciprocal transfer of credit occurs; students transfer credit from the first institution to UWM.  
▪ Requirements for approval vary depending on details.  
▪ Systematic sequential degree partnerships in which all students are labeled as participating in an identifiable program require authorization of program faculty, school/college dean, institutional governance, provost, and chancellor. System or Regent approval may be required.  
▪ As long as all UWM admission and program/degree requirements are met and the program faculty maintain control of the curriculum and program requirements, no academic approvals are required by external agencies such as the Higher Learning Commission.  
▪ Resulting new programs would be subject to standard accreditation review/requirements. | tbuss@uwm.edu |
| Dual Degree            | Students complete the requirements for two degrees from two institutions, with efficiencies in course taking due to transfers of credits. | ▪ Signature authority resides with UWM Chancellor or Provost.  
▪ Each institution is primarily responsible for its own degree.  
▪ Applicable to undergraduate and graduate level collaborations.  
▪ Same result could be achieved through Credit Transfer Agreement.  
▪ Partner institution’s students must apply and enroll at UWM through regular UWM admissions process. They are considered UWM students during the time they are enrolled at UWM.  
▪ Helpful to establish agreement on course equivalencies between UWM and partner.  
▪ Requirements for approval vary depending on details.  
▪ If the dual degree is developed as a new program that does not make use of an existing UWM program authorization, then the process for new program approval is followed.  
▪ Faculty and governance responsibility for the UWM program remains with UWM.  
▪ Undergraduate students enrolling at UWM as degree-seeking students under a dual degree partnership may be eligible to apply for UWM Global Partners Scholarships. | tbuss@uwm.edu |
| Joint Degree           | A single degree authorized and conferred by two or more partner institutions; faculty, governance groups, governance boards share authority. | ▪ Signature authority resides with UWM Chancellor or Provost.  
▪ Not readily put in place at UWM. Currently no capacity to develop joint degrees at UW System institutions.  
▪ The shared, overlapping governance of a program with another university or college makes these programs especially challenging to establish.  
▪ Requires authorization of program faculty, school/college dean, institutional governance, provost, chancellor, UW System Administration, Board of Regents, and Higher Learning Commission. Also requires approvals through the partner institution. For international joint degrees, approvals from national-level agencies that oversee higher education in the partner’s country may be required. | tbuss@uwm.edu |
| UWM as Study Abroad Site for Non-US Universities | The partner institution’s students attend UWM as | ▪ Signature authority resides with UWM Chancellor or Provost.  
▪ Typically at the program level.  
▪ May be undergraduate or graduate level. | tbuss@uwm.edu |
