## What's a Debit Card?:

A debit card is a payment card that deducts money directly from your checking account. Also called “check cards” or “bank cards,” debit cards can be used to buy goods or services or to get cash from an ATM. Debit cards can help you reduce the need to carry cash, although using these cards can sometimes entail fees.

## How a Debit Card works ?:

A debit card is a card linked to your checking account. The amount of money you can spend on a debit card is determined by the amount of funds in your checking account. You can use a debit card to get cash from an ATM or you can make purchases with it

# What do you need to open an account:

- Passport :

- At least \$5:

- SSN or National identification number\*

[https://en.wikipedia.org/wiki/National\\_identification\\_number#:~:text=A%20national%20identification%20number%2C%20national,benefits%2C%20health%20care%2C%20and%20other](https://en.wikipedia.org/wiki/National_identification_number#:~:text=A%20national%20identification%20number%2C%20national,benefits%2C%20health%20care%2C%20and%20other)

\* What happens if you don't have either, no worries we can still open your accounts!
