What is CDS?

Community Design Solutions (CDS) is a multidisciplinary team of students and faculty of the University of Wisconsin - Milwaukee that creates visionary and implementable solutions through public partnerships.

What are CDS Projects?

CDS projects take place in the local community and enhance the environment. These projects are carried out through a collaboration of students and faculty. The community is involved with the entire project from the planning process to the presentation and refinement of the designs. They also fundraise and help build the projects.

Welcome to the Summer 2018 Newsletter. This newsletter features a quick overview of CDS projects, events, and how we are stimulating funding, promoting positive change, and serving underserved communities.

On The Boards

Housing & Civic Uses  I Client: S Sixteenth St Community Health Center

Based on discussions with the client, this project is to create housing options, civic uses, and takes advantage of the natural features and environment amenities of the site.

Reflo MPS Play Yards

SSCHC Parcel Development

CDS Staff: Bill Noelck, Jack Grover, Valerie Davis, Mahshid Jalalianhosseini, Jordan Felber

SARUP that assists clients and faculty to develop concepts that can be presented to stakeholders, and business owners, three parcels were identified.

Center Street and Fond du Lac Avenue are at the center of the community of Bay View and the brewery district. Along these streets are churches, neighborhood programming, facade enhancements, and new developments. Streetscapes focuses on identity, pedestrian walkability, and enhancements propose color, signage, and lighting to activate various buildings and sites to bring needed investment.

C4 Hub Redevelopment  I Client: Commercial Corridors Institute

This project is the continuation of a previous CDS project to identify sites that could serve as parks or activate various buildings and sites to bring needed investment.

Marketplace BID #32, along North Avenue, is looking to activate various buildings and sites to bring needed investment.
