Highest risk: Staying a long time at an indoor large gathering where it’s hard to stay 6 feet apart, people are not wearing masks and people are sharing objects.

Medium risk: Staying a shorter time at an outdoor or indoor smaller gathering where people can stay 6 feet apart, wear masks and don’t share objects.

Lowest risk: Connecting via video chat, social media, phone and online games.

Limiting close face-to-face contact with others (outside of your roommates) is the best way to reduce the spread of COVID-19.
