THE OTHER BENEFIT OF SELF-REPORTING?

UWM gets accurate data, which lets us work effectively with local health departments to **keep our community safe.**

MYTH:

Everyone will know I tested positive if I self-report.

FACT:

They won't. UWM won't share your name with other students or people outside the university.

MYTH:

If I self-report, I'll get in trouble.

FACT:

You won't. UWM's only goal is to provide students with academic and health resources.

MYTH:

Self-reporting isn't important.

FACT:

It is. The data helps UWM make informed decisions about the health and safety of our community.
