

Doctor of Philosophy in Electrical Engineering - Program of Study

Name: _____ Student ID: _____

Address: _____ Phone: _____

Email: _____ Date: _____

Major Professor/Advisor: _____

	Course Number	Course Title	Credits	Semester	Transfer credit (✓ if yes)
Major Area (21 credits minimum)					
Minor (6 credits)					
Electives (9 credits)					
Dissertation (15 credits minimum)					
Other Credits		CEAS Graduate Seminar	3		

Student: _____ Date: _____

Major Professor/Advisor: _____ Date: _____

Return to the Graduate Program Office for Associate Dean **Approval/Signature**

CEAS Associate Dean of Graduate Programs: _____ Date: _____

Program of study must include a minimum of 54 credits beyond the bachelor's degree with:

- A maximum of 24 credits can be considered for transfer from prior graduate work including a master's degree. Students entering the program without a prior applicable master's degree are limited to a maximum of 9 transfer credits.
- A minimum of 21 credits, excluding dissertation, must be at 700 level or higher.
- A minimum of 27 credits, including dissertation, must be completed while enrolled at UWM in the PhD Degree program.
- All coursework listed on the program must be completed prior to applying for Dissertator status
- The minor must be taken using courses outside of Electrical Engineering (and excluding cross-listed courses); in other CEAS programs, or in the physical sciences, management sciences, or mathematics. However, in some cases there may be a subdomain of Electrical Engineering that is clearly separate yet necessary and complementary to the major area. In this case, the student may specify a set of minor courses taken from within Electrical Engineering. These minor courses must be approved by the advisor *prior* to taking any of them.
