Please join this Innovation Seminar to gain valuable insight into smart and energy-efficient transportation. This is an excellent opportunity to connect with leading German industrial leaders who seek research and development collaboration with academic research faculty and students. UWM faculty and students are encouraged to attend this seminar.

3:00pm

Welcome Remarks
- Dr. Al Ghorbanpoor, Professor and Director, Institute for Physical Infrastructure & Transportation at University of Wisconsin - Milwaukee
- Dr. John Gatto, President, Wisconsin Chapter - GACC Midwest
- Svenja Schroeder, Manager, Market Entry Programs, Delegations & Events, GACC Midwest

3:10pm

Fast Charging of Automated Electric Vehicles - A Common Approach for Different Vehicle Categories
Dr. Thoralf Knote, Head of Vehicle and Transport System Engineering Department, Fraunhofer Institute for Transportation and Infrastructure Systems

3:40pm

The Future of Smart Parking
Steve Gorski, General Manager North America, Cleverciti Systems, Corp.

3:55pm

Automated Mobility: How we Attack the Data, Safety and Security Challenge
Fabian Koark, CEO North America, INVENSITY, Inc.

4:10pm

Transportation Research at University of Wisconsin - Milwaukee
Dr. Troy Liu, Professor, Civil & Environmental Engineering Department at University of Wisconsin - Milwaukee

4:30pm

Panel Discussion and Q&A
Moderation: Dr. Al Ghorbanpoor, Professor and Director, Institute for Physical Infrastructure & Transportation at University of Wisconsin - Milwaukee

5:00pm

Networking Reception

5:30pm
End of the Program
