† The Bachelor of Science degree requires two years in high school of a single foreign language or two semesters of college-level single foreign language, or equivalent.

**Foreign Language Requirement:**

Completion of the foreign language requirement can be demonstrated by satisfying one of the following options:

- Prior to enrollment at UWM, complete, with passing grades, at least two consecutive years of high school-level instruction in a single foreign language, or
- Complete at least two consecutive competency sets (or previously completed semesters (minimum total of six credits) of college level instruction in a single foreign language, or
- Demonstrate foreign language ability equivalent to two competency sets of college-level instruction by means of a satisfactory score on an approved placement, proficiency, departmental or other appropriate examination.

**UWM Bachelor of Science in Health Science – Flex Program  
Hybrid Face-to-Face/Online\* Sample Degree Cost**

The above Health Sciences Degree Plan involves taking courses in two different academic units: the UWM’s College of General Studies (CGS) and UW System’s Extended Campus, which oversees the Flex Program. Each academic unit has different tuition costs. All CGS courses taught at UWM at Waukesha and UWM at Washington County (indicated by the CGS in the course code) are at the lower tuition rate. Upper-level courses in the UW Extended Campus Flex Program (indicated by an asterisk) are taken Online and have a different tuition schedule.

The Estimated Tuition Cost table shows the total tuition cost of a bachelor’s degree when combining CGS tuition (\$198/credit) for 60 credits and affiliate program tuition for 60 credits. Tuition costs displayed do not include additional fees or costs, including student segregated fees (some programs do not require seg fees), applicable course fees, books or supplies, room or board costs, or personal technology costs. Since these vary by course, degree path course selection, and student, it is not possible to provide a final estimate of total costs. Estimated tuition costs assume that students will graduate with exactly 120 credits and average 15 credits per semester to complete the bachelor’s degree in four years. Some degree pathways require more credits and will incur additional tuition costs. The UW Extended Campus Flex Program has different tuition costs, depending on the number of courses taken.

**Estimated Tuition Cost**

<b>Bachelor’s Degree Program Combinations for 120 credits by Campus</b>	<b>Program Tuition Costs</b>	<b>Average Tuition Cost per credit</b>	<b>Program Tuition Cost Average Per Year for each of 4 years</b>
CGS & Flex 120 credit costs	\$ 34,380	\$ 286.50	\$ 8,595

The above table displays the minimum tuition costs for completing these programs. Final program costs will vary depending on segregated fees, course fees, and technology fees when they apply. In addition, some programs allow more transfer credits to count toward the 120 credits, thus decreasing costs further.
