

WORKING ON IT:

GIS and High Performance Computing

WANT TO PROCESS BIG GIS DATA?

TIRED OF RUNNING ANALYSIS OVER THE WEEKEND?

DAN SIERKS Research Computing Specialist, L&S IT

STEPHEN APPEL Geospatial Information Specialist, UWM Libraries

WEI XU Ph.D. Candidate Dept. of Geography, GIS Club

UWM Libraries

DH Lab | Feb 19

3-5PM

BRING YOUR IDEAS FOR GIS PROJECTS USING BIG DATA

Moderators will share examples and information about how researchers at UWM can take advantage of high performance computing resources to perform spatial and geographic analysis. Stop spending days waiting for your computer to process your data!

"Working on it": Collaborative DH Research Round Tables is a series focused on informal discussions about collaborative, work-in-progress research projects. Our aim is to support collaborative research efforts and help bring together ideas and brains across departments and disciplines.

Light refreshments provided!
