

# Radiologic Technology Professional Training

## University of Wisconsin-Milwaukee (UWM)

Students who have applied and are accepted by the UW-Milwaukee Radiologic Technology program follow the two-year professional training curriculum (six semesters) outlined below. Students enroll in these courses through the UWM Enrollment Appointment registration system (PAWS). It is critical that students select the courses associated with the hospital site that has admitted them. Unless a student is officially enrolled in the required professional training courses each semester through UWM, they will not be allowed in the hospital setting.

When registering for UWM courses, use section codes LEC 003, LEC 403, LAB 807 or 808, or FLD 903 (clinical education).

**“DMI” abbreviation stands for Diagnostic Imaging in PAWS.**
