

Recommended Elective Courses · B.S. Nutritional Sciences

An elective is any credit-bearing course offered by the University. The courses listed below are recommended elective options because they complement the study of nutritional sciences and/or explore related topics/areas.

Descriptions of the courses listed below and prerequisites (if any) are available on the UWM Schedule of Classes (www.uwm.edu/schedule). It is the responsibility of the student to review and satisfy any published prerequisite(s) before enrolling in a course.

The courses listed below are not necessarily offered every semester; some may be offered only in fall or spring, and some may not be offered routinely. Consult the Schedule of Classes to determine if a particular course will be offered in the coming term.
