

College of Health Sciences Scholarship Guide

Academic Year 2018-19

Application
deadline is
February 1,
2018

Scholarships are a great way to provide additional financial support for eligible students. As a College of Health Sciences (CHS) student, you have many scholarship opportunities available. CHS typically awards more than \$32,000 per year in scholarships to our own students. These awards are in addition to scholarships available through UWM's Financial Aid Office and other resources.

Not all scholarships are based on Financial Need, however, students are strongly encouraged to have completed their 2018-19 FAFSA prior to submitting their scholarship application. fafsa.ed.gov

Use the **online application** form on the CHS website to get started. All scholarships require that you submit the application form, student statement, letter of recommendation and résumé. Two scholarships require a short essay – plan ahead. Invest some time in yourself and submit an application.

All students who submit a completed application will be reviewed for eligibility to all scholarships. Really! ALL!

- Undergraduate and Graduate Students
- First Generation Students
- Students from Underrepresented backgrounds
- Students in all CHS Degree programs and in all class levels
- New Freshmen and New Transfer Students
- All GPA's at or above a 2.5 welcome

For more information, e-mail CHS-INFO@uwm.edu

Students must be enrolled in UWM's College of Health Sciences during the Fall 2018 semester to be a scholarship recipient.

Applications must be postmarked or received by **Thursday, February 1, 2018**. So, don't miss it. **Start your application today.**

Scholarships you may be eligible for
