

Radiologic Technology Professional Training

Froedtert Hospital

Students who have applied and are accepted by the Froedtert Hospital professional training program follow the two-year professional training curriculum (six semesters) outlined below. **Students enroll in these courses through the UWM Enrollment Appointment registration system (PAWS). It is critical that students select the courses associated with the hospital site that has admitted them. Unless a student is officially enrolled in the required professional training courses each semester through UWM, they will not be allowed in the hospital setting.**

When registering for Froedtert courses, use section code 101 or 901 (clinical education).

“DMI” abbreviation stands for Diagnostic Imaging in PAWS.
