

## *The Wisconsin Trauma Project*

### **Sustaining Advanced Trauma-Focused Cognitive Behavioral Therapy (TF-CBT) Practice**

Since 2012, the Wisconsin Trauma Project at the Department of Children and Families has trained clinicians throughout Wisconsin on Trauma-Focused Cognitive Behavioral Therapy (TF-CBT). In the final year of the Wisconsin Trauma Project, efforts are being focused on sustaining and strengthening the practice of the clinicians and agencies already trained. To do that, the Wisconsin Trauma Project is offering regional Advanced Training Days in 2020.

#### ***Sustaining Advanced TF-CBT Practice Training Topics***

Screening and Assessment

Supervision

Fidelity Monitoring

Keeping a trained workforce

Working with different populations

Interaction with partners

Policies and Procedures

Ways to monitor and address Secondary Trauma

#### ***Participation Fee***

DCF has secured funding to cover the majority of the costs associated with the training. However, a fee of \$35 per clinician is required to participate in the training. This fee contributes to covering cost of two national trainers, materials, continuing education credits, and logistics.

#### ***Sustaining Advanced TF-CBT Practice Sessions:***
