

School Library Media: Fully Online Program

Online Program Overview

- All courses are offered online asynchronously, with no on-campus requirement
- Students should plan to complete fieldwork in their own local school districts near the end of their program of study
- SOIS tuition for online courses is set as fee-in-lieu, of which means students are charged a flat tuition rate regardless of residency (\$800 per grad credit, \$400 per undergrad credit)
- [Click here](#) to view additional Out-Of-State Certification information

Students are strongly encouraged to decide which pathway to pursue before they begin their program. Classes taken on the certification-only pathway will not count towards a MLIS.
