

College of Letters & Science

# Intended Major

**You do not have to complete this form and need not be concerned if you have not as yet selected an area of interest.** The earliest part of a student's academic career is a time for exploration of a wide range of possibilities.

**Selection of an intended major is NOT a commitment to stay with a particular field of study.** Students can add or drop intended majors at any time simply by completing another 'Intended Major' form.

Students in the College of Letters & Science may declare a formal major only after completion of 15 degree credits. However, the College recognizes that many students commit to a particular area of study early on, and they can benefit considerably from contact with faculty advisors in the department of interest. Therefore, the College encourages students who have decided on a field of study to indicate that intended major. This will allow the department to contact interested students about activities, events, opportunities and curricular changes relating to the field of interest.
