

College of Letters & Science

# Credit/No Credit Policy

Students may enroll in a course on a credit/no credit (C/NC) basis with the following restrictions:

- The course may not be in your major, minor or certificate program.
- The course may not be part of the Honors College.
- The course may not be taken to complete the English and/or mathematics requirements.
- If a student is following the degree requirements prior to Fall 2008, C/NC cannot be part of the Letters and Science language requirement. Students following the degree requirements for terms beginning Fall 2008 or later, may use C/NC as part of the Letters and Science language requirement.

To be granted credit for a credit/no credit course, a student must earn a grade of “C-” or better. The credits will be counted toward total degree credits earned but will not affect a student’s grade point average. Only one course per semester up to a maximum of eight courses may be taken using this option. If a student enrolls in a course that may only be taken on a C/NC basis, s/he may take an additional course on a credit/no credit basis that semester. Refer to the schedule of classes to determine when changes to or from C/NC are allowed.
